University Professorships

TAGORE LAW PROFESSORSHIP.

The Hon'ble Prosunno Coommar Tagore, C.S.I., one of the Fellows of the University, who died on the 30th August, 1868, bequeathed by his will, dated the 10th October, 1862, to the University a monthly allowance of Rs 1,000 for the purpose of founding a Professorship of Law in connection with the University to be called the "Tagore Law Professorship." The terms of the bequest are given in the following extract from the will (4 Bengal Law Reports, O.C.J. 103, at 116) :

"I am desirous of founding a Law Professorship to be called 'The Tagore Law Professorship' and of providing an adequate remuneration for the Professor who shall fill the chair provided by me. I direct that my Trustees or Trustee do and shall, as soon as may conveniently be after my death, invest, in Government Securities, such a sum of money taken from my personalty or, by degrees, from the income of my real estate at the discretion of my Trustees or Trustee, as will produce the monthly sum of Rs. 1,000, and that when such sum has been invested, the same may be assigned, transferred and made over to the University of Calcutta, to be held upon the following trusts, that is to say, in trust to pay out of the interest accruing due therefrom the annual sum of Rs. 10,000* by equal monthly payments to the Tagore Law Professor, for the time being, and in trusts to apply the residue of the interest in the manner hereinafter mentioned. And I desire that until such sum shall have been so invested and made over as hereinbefore directed, my said Trustees or Trustee shall either from the proceeds of my personal estate or from the rents, issues, and profits arising from my real property, pay the sum of Rs. 1,000 a month to the University of Calcutta to be applied by the University in the same manner and for the same purposes as the interest to accrue due from the funds which I have hereinbefore directed to be made over to the University. And I declare that the right of appointing a Professor to the said 'Tagore Law Professorship,' and removing or dismissing the incumbent therefrom shall be vested in the Senate of the University. And that the first appointment shall be made so as to begin to take effect not later than the end of one year from the date of death: my will is that the 'Tagore Law Professor' shall read or deliver at some place within the town of Calcutta, one complete course of Law lectures without charge, to the students and other persons who may attend such lectures. Within six months after the delivery of each course of lectures, the lectures shall be printed

* The present salary is Rs. 9,000 per annum.

and not less than 500 copies thereof shall be distributed * gratuitously. I desire that the expense of such printing and distribution may be defrayed out of the residue of the annual interest of the said fund. Whatever portion of the residue may remain after defraying the expenses, I desire that it may be devoted to the printing and publication of approved works of Law of Jurisprudence. It is my will that the said 'Tagore Law Professorship' shall save as herein provided, be as to the kind of Law which is to be taught and in all other matters and things regulated by and subject to the control of the Senate of the said University."

The Senate has adopted the following scheme for the lectures:

1. In the month of June in each year, the Faculty of Law shall select not more than three subjects upon one of which the Professor for the following year shall be required to deliver a course of at least twelve lectures.

2. Immediately after the subject or subjects shall have been thus selected, advertisements shall be published in such newspapers as the Syndicate may think proper, stating the subject or subjects so selected and inviting applications from candidates for the Professorship.

3. Candidates shall send in their applications to the Registrar on or before the 1st may following, and each candidate shall forward with his application one hundred copies of a brief synopsis of his proposed lectures and, if he so pleases, the same number of copies of his introductory lecture.

4. The copies of the introductory lectures and the brief synopses so sent shall be referred to a Committee of the Faculty of Law, consisting of five members to be chosen by the Faculty, who shall consider the same and report thereon to the Faculty, who shall recommend a candidate to the Senate for election.

5. The election of the Professor shall take place in the month of August.

5A. That if no application is received in accordance with Rule 3, or if the Faculty of Law are satisfied, upon the report of the Committee mentioned in Rule 4, that Introductory Lectures and the brief synopses submitted by the candidates do not evince sufficient merit to justify the appointment of any of them as Professor, the Faculty shall take steps to invite a suitable scholar to accept the appointment and to deliver a course of lectures on such subject as may be determined by the Faculty in consultation with him. The name of the person so nominated together with the names of the original applicants shall be submitted to the Senate with a full report by the Faculty on the matter. The Senate shall then elect a Professor or give such further directions as may be deemed necessary.

6. The Professor, whether elected under Rules 5 or 5A, shall, not later than the expiry of twelve months from the date of his election, forward to the Registrar a complete copy (manuscript or type-written) of the lectures which he proposes to deliver. The copy shall be forthwith referred to a Committee of the Faculty of Law, consisting of not more than three members to be chosen by the Faculty, who shall examine the same, and before the expiry of two months from the date of the submission of the copy by the Professor to the Registrar, report to the Faculty whether the work is complete and ready for the Press. If, upon such report, the Faculty are satisfied that the work is complete, the Professor shall commence to deliver his lectures within three months from the date of the resolution of the Faculty and shall complete the delivery thereof in another three months. The copy of the lectures delivered shall

* The Syndicate has laid down the following rules for the distribution of the books.

That copies of the lectures be distributed gratis only to such students as shall have attended 75 per cent. of the lectures delivered by the Tagore Professor of Law, and shall have obtained not less than 40 per cent. of the marks in the examination held by him.

remain in the custody of the Registrar and shall be sent to Press as soon as practicable after delivery thereof.

7. If the Professor fails to submit the copy of the lectures as required by Rule 6 or, if the copy submitted be found on examination to be incomplete and not ready for the Press, the matter shall be referred to the Faculty of Law upon whose recommendation the Senate may either extend the time or cancel the appointment. In the event of the appointment being cancelled, the Senate shall take fresh steps for the appointment of a Professor.

8. The salary of the Professor shall be paid in twelve equal monthly instalments; the first instalment to be paid on the first day of the month following that in which the first lecture is delivered.

MINTO PROFESSORSHIP OF ECONOMICS.

To commemorate the Jubilee of the University of Calcutta which was celebrated in 1908, the Hon'ble the Vice-Chancellor (Mr. Justice Asutosh Mukerjee) proposed to the Government of India that a Professorship of Economics should be established. This proposal was accepted by Government, and the Senate resolved on the 11th April, 1908, that the chair should be named after the Earl of Minto, the then Chancellor of the University.

The following rules have been adopted for the appointment and duties of the Professor :—

The appointment shall be made by the Senate.

1. The salary of the Professor will be Rs. 12,000 a year, to be paid in equal monthly instalments. The Professor will in the first instance be appointed for a term of five years only, but upon the expiry of his term, he will be eligible for re-appointment.

2. The University will pay first class passage to the selected candidate from his place of residence to Calcutta.

3. The duties of the Professor will be as follows :

(a) To devote himself to the investigation of the Science of Economics and its application to Indian Problems.

(b) To deliver (not less than once a week during six weeks every year) a course of at least six lectures upon Economics with special reference to Indian Problems and embodying, as far as possible, the result of his own researches in the subject. (Such lectures, after delivery, will be published by the University.)

(c) To hold classes in Economics not less than twice a week during at least twenty-five weeks every year, for the benefit of post-graduate students and to promote research by them as far as practicable.

(d) To prepare a work dealing with the application of the principles of Political Economy to such Indian topics as may be agreed upon between the Senate and the Professor at the time of his appointment.

4. Applications from candidates for the Professorship must reach the Registrar of the University, not later than (to be specified).

5. Every application shall be accompanied by —

(c) a statement of the topics on which he undertakes to prepare a work dealing with the application of economic principles to Indian conditions.

GEORGE V PROFESSORSHIP OF MENTAL AND MORAL SCIENCE.

In commemoration of the visit of their Imperial Majesties King-Emperor George V and Queen-Empress Mary to India during 1911 and 1912, His Excellency the Governor-General in Council, on the recommendation of the Syndicate and the Senate of the Calcutta University, was pleased to sanction the foundation of a Professorship to be called the George V Professorship of Mental and Moral Science. At the Annual Convocation of the Senate in 1912

His Excellency the Chancellor made the important announcement that a recurring grant of Rs. 65,000 per annum would be made by the Government of India to the Calcutta University for the purposes of higher teaching. The Syndicate, thereupon, decided that the University should have a Professor of Mental and Moral Science of its own. No provision existed at that time for the teaching of this branch of knowledge up to the M.A. standard in any of the Colleges in Calcutta, except the Scottish Churches College where the arrangements for that purpose were likely to be unfavourably affected by the impending retirement of Professor Stephen. Although elaborate Regulations for a course in Experimental Psychology had been framed in 1906, no arrangements were made or could yet be made in any College for the teaching of this increasingly important branch of knowledge. Mental and Moral Science has always had great attraction for Indian students and important papers dealing with topics under this head have been written by some of the graduates of this University. It was therefore expected that the establishment of a special chair in the subject would stimulate higher study and research on lines likely to prove fruitful. It was resolved that the salary of the Professor be fixed at Rs. 12,000 per annum.

HARDINGE PROFESSORSHIP OF HIGHER MATHEMATICS.

To commemorate the visit of their Imperial Majesties King-Emperor George V and Queen-Empress Mary to India during 1911 and 1912 and Their gracious reception of a loyal address from the Calcutta University, His Excellency the Governor-General in Council, on the recommendation of the Syndicate and the Senate, was pleased to sanction the foundation of a chair to be styled Hardinge Professorship of Higher Mathematics. At the Annual Convocation of the Senate in 1912, the important announcement was made by His Excellency the Chancellor that higher teaching would receive fresh impetus from the Government of India, who had decided to make a recurring grant of Rs. 65,000 a year to the Calcutta University. The Syndicate came to the conclusion that the purposes of stimulating higher study and research would be best served by utilising a portion of the Imperial grant for making adequate arrangement for the delivery of post-graduate lectures in Higher Mathematics. Inadequate accommodation in the M.A. and M.Sc. Mathematics classes in the affiliated Colleges and the yearly increasing number of candidates for examination in the subjects, since the introduction of the new University Regulations in 1906, convinced the Syndicate of the desirability of founding a chair in Higher Mathematics. It was resolved that the Professorship be associated with the name of His Excellency the then Chancellor of the University and called the Hardinge Chair of Higher Mathematics. It was also resolved that the Chair should carry a salary of Rs. 12,000 per annum. The Senate also agreed to grant to the first Professor Rs. 3,000 a year as house allowance.

CARMICHAEL PROFESSORSHIP OF ANCIENT INDIAN HISTORY AND CULTURE.

Ancient Indian History and Culture constitutes a branch of study in which research can be carried on by the advanced students with every hope of success. In 1912, the Syndicate were of opinion that the foundation of a Chair of Ancient Indian History and Culture was probably the foremost need of the Calcutta University. It was decided that the money for the Chair would be met from the sale proceeds of the Sanskrit Matriculation and Intermediate Courses and the Sanskrit Grammar published by the University. It was resolved that the Chair be designated the Carmichael Professorship of Ancient Indian History and Culture and that the salary be fixed at Rs. 12,000 per annum.

1913-14 Prof. G. Thibaut, C.I.E., Ph.D., D.Sc.

1917-20 Prof. D. R. Bhandarkar, M.A., Ph.D. (Permanent since 1920).

PALIT PROFESSORSHIP OF CHEMISTRY.

Among the public-spirited and generous benefactors of the University, the first and foremost rank must be assigned to the late Sir Taraknath Palit, whose princely gift worth about Rs. 1,500,000 in 1912 is unsurpassed in the annals of this or any other Indian University. Out of the income derivable from the Palit endowment, two Chairs are maintained one of which is designated the Palit Professorship of Chemistry and the other, the Palit Professorship of Physics. Out of the total value of the endowment, Rs. 1,00,000 will be set apart for the founding of a Scholarship to be awarded to a distinguished graduate of high attainments and character with a view to enable him to proceed to some foreign University for the purpose of advanced study and research in some special branch of Science. It is expressly stated in the Trust Deed that the object of the founder is the promotion and diffusion of scientific and technical education and the cultivation and advancement of Science, pure and applied, among his countrymen by and through indigenous agency. The Senate has agreed, therefore, that the Chairs will always be filled by Indian (that is, persons born of Indian parents, as distinguished from persons who are called Statutory Natives of India). The Professors-elect may in the discretion of the Governing Body of the University College of Science, be required to receive special training abroad, before they enter upon the duties of their office. It shall be the duty of the Professors (a) to carry on original research with a view to extending the bounds of knowledge (b) to stimulate and guide research by advanced students, and as an essential preparation for this purpose, (c) to arrange for the adequate instruction of students for the Degree of Bachelor of Science with Honours, Master of Science and Doctor of Science and also of other students who may be exceptionally qualified in any of the subjects of study, although they may not be even under-graduates of any University, provided that they be recommended by the Governing Body constituted as follows:

1. The Vice-Chancellor of the University of Calcutta, *President, Ex-Officio*.
2. The Director of Public Instruction, Bengal.
3. The Dean of the Faculty of Science.
4. The Dean of the Faculty of Engineering.

5. Four members of the University, to be annually elected by the Senate two of whom at least shall be representatives of Colleges in Calcutta under Indian management, affiliated in Science to this University.

6. Four members to be nominated every three years by the founder and after his death by his representative or representatives in that behalf as is hereafter provided :

The founder nominated

Mr. Lokendranath Palit, I.O.S. (since deceased),

The Right Hon'ble Lord Sinha of Raipur,

The Hon'ble Mr. Justice B. K. Mullick, I.C.S.,

The Hon'ble Sir Nilratan Sircar, Kt., M.A., M.D., LL.D., D.C.L.,

to be his nominees on the said Governing Body and they are and each of them is authorized to nominate his or their successor or successors, provided always that the Hon'ble Sir Aantosh Mookerjee shall always be a nominee of the Founder if he has not otherwise a seat on the Governing Body.

The power of nominating a successor or successors shall be inherent in every original or derivative nominee of the Founder.

7. Two representatives of the Professorial staff to be elected by them annually from amongst themselves.

The proceedings of the said Governing Body shall be laid before the Syndicate and may be revised by it.

The following four members have been elected by the Senate to the Governing Body of the Sir T. N. Palit Trusts for the years 1921-22 and 1922-23:—

1921-22.

Prof. P. J. Brühl, D.Sc., I.S.O., F.C.S., F.G.S.

Prof. P. J. Brühl, D.Sc., I.S.O., F.C.S., F.G.S.

Jnanranjan Banerjee, Esq., M.A., B.L.

(b) A Professor may voluntarily resign his appointment at any time, upon not less than six months' notice given by him in writing to the Governing Body.

“ 46 THEATRE ROAD,
CALCUTTA.

The 8th August, 1913.

MY DEAR SIR ASUTOSH,

For some time past, it has been my desire to place at the disposal of my University a substantial sum for the promotion of Scientific and Technical Education and for the Cultivation and Advancement of Science, Pure and Applied, amongst my countrymen by and through indigenous agency. I have now decided to make over to the University a sum of ten lakhs of Rupees, in furtherance of the University College of Science, as projected by you with the sanction of the Senate, and my gift to the University will be made on the following conditions:—

First.—That the sum be invested in such approved securities as would produce an income, whenever practicable, of four per cent, per annum.

Second.—That four University Professorships or Chairs be established, one for each of the following subjects:—

- (a) Applied Mathematics.
- (b) Physics.
- (c) Chemistry.
- (d) Botany, with special reference to Agriculture.

Third.—That the Chairs mentioned be always filled by Indians (that is persons born of Indian parents as contra-distinguished from persons who are called Statutory Natives of India).

Fourth.—That the salary of each Professor be as nearly as possible, a sum of six thousand rupees annually, to be paid out of the income of the fund; but that it be open to the Senate to supplement such sum from the University or other funds at their disposal from time to time.

Fifth.—That the appointments to the Chairs be made by the Senate upon the nomination of the Board to be constituted as stated hereinafter, and the power of removal of Professors by the Senate, if occasion should ever arise, be exercised only after the matter has been considered by the said Board.

Sixth.—That every person elected to one of these Chairs, whether he has been educated in this country or elsewhere, may, in the discretion of the Senate be required, before he enters upon the execution of the duties of his office, to receive special training, during a period of not less than one year and not more than two years, under specialists in Europe, America, Japan or such other place outside India as the Senate may, in each instance upon the recommendation of the Board, determine; and that during such period the Professors-elect be paid from the income of the fund, such allowance as the Senate may, upon the recommendation of the Board, determine, so as to enable him to receive a thorough theoretical and practical training in his special subject.

Seventh.—That it be the duty of each Professor—

(a) to carry on original research in his special subject with a view to extend the bounds of knowledge and to improve by the application of his researches, the Arts, Industries, Manufactures and Agriculture of this country ;

(b) to stimulate and guide research by advanced students, and generally, to assist them in Post-graduate work, so as to foster the growth of real learning amongst our young men.

On the 22nd of December, 1919, Sir Rashbehary Ghose, Kt., C.S.I., O.I.E., M.A., D.L., Ph.D., offered to place at the disposal of the Calcutta University a further sum of eleven lakhs and forty-three thousands of Rupees to be applied

“SANS SOUCI,”

ALIPORE, CALCUTTA.

The 22nd December, 1922.

THE HON'BLE SIR NILRATAN SIRCAR, Kt., M.A., M.D.,

Vice-Chancellor of the Calcutta University.

DEAR SIR,

About six years ago I made over to the University ten lakhs of rupees in aid of the University College of Science for the promotion of Scientific and Technical Education and for the cultivation and advancement of Science, Pure and Applied, amongst my countrymen. I understand that although that sum has enabled the University to arrange for instruction and research in Pure Science, the University has not been able from lack of funds, to make a similar advance in Applied Science. I have accordingly decided to place at the disposal of the University a further sum, namely, three and a half per cent. Government Securities for Rs. 11,43,000, which will produce an annual income of Rs. 40,000 to be applied exclusively for purposes of technological instruction and research. This sum will be held by the University as an integral part of the original gift and all the conditions mentioned in my letter of the 8th August, 1913, shall apply, subject to the following modifications:

First:—That two new University Professorships or Chairs (in all respects subject to the same conditions as mentioned in my letter of the 8th August, 1913) be established, one for each of the following subjects:

(e) Applied Chemistry.

(f) Applied Physics.

Note.—By ‘Applied Chemistry’ I mean one or more of the following subjects as suggested in the report of the Calcutta University Commission:

Colour chemistry, preparation of dyes, drugs and photographic chemicals, tanning, fermentation, gas and coal-tar industries and oil industry, or such other subject or subjects as may from time to time be determined by the Board of Management.

By ‘Applied Physics’ I mean one or more of the following subjects as suggested in the report of the Calcutta University Commission:

Electrotechnology, applied thermodynamics and the standardisation of instruments,

or such other subject or subjects as may from time to time be determined by the Board of Management.

Secondly:—That four additional studentships (in all respects like those mentioned in my letter of the 8th August, 1913) be established, to such students to be attached to each of the Professors mentioned above.

Thirdly:—That the balance which will remain out of the annual income of the fund, which is likely to exceed Rs. 24,000, after payment of the salaries of the Professors and studentships, should be applied to the equipment and maintenance of the necessary Laboratories, Museums and Workshops, the adequate provision for which is absolutely necessary, and for which sufficient money might not be available from other funds at the disposal of the University.

Fourthly:—That the Board of Management do include the Professors of Applied Chemistry and Applied Physics in the same way as the other four Professors mentioned in my letter of the 8th August, 1913.

On receipt of intimation that the Senate has accepted my offer, I shall arrange for the transfer of the securities to the University.

Yours truly,

RASH BEHARY GHOSE.

Private International Law again forms a compulsory subject in the Examination for the degree of Master of Law. Therefore on the recommendation of the Council of Post-Graduate Teaching in Arts and the Governing Body of the University Law College, the Senate submitted a proposal to Government of Iddia for founding a Professorship in the subject and recommended that Mr. Arthur Brown, M.A., LL.B., be appointed as the first incumbent. University Lectureships

1

STEPHANOS NIRMALENDU GHOSH LECTURESHIP.

In August, 1919, Mr. G. O. Ghosh of 2, Simla Street, Calcutta, made over to the University $3\frac{1}{2}$ per cent. Government Promissory Notes for one lac of rupees for the institution, in memory of his son, of a course of lectures on Comparative Religion to be delivered before the University of Calcutta according to appointment made at stated intervals of not more than three years, the lecturer to be appointed after advertisement in the celebrated Universities of the world. The donor stated that his desire was that the lecturer should, in dealing with the subjects of his lectures, endeavour to show that the highest ideal for man lay in love and service to his fellowmen according to the essence of the teaching and life of Christ, and that life lived under the Guidance of this ideal constituted the highest advancement of human personality, the acceptance of a particular creed or dogma being of subordinate importance.

From G.C. Ghosh, Esq., 2 Simla Street, Calcutta, to the Vice-Chancellor, Calcutta University, Calcutta, dated the 10th, March, 1919.

I am desirous of making over to the University of Calcutta $3\frac{1}{2}$ G.P. Notes for one lac of rupees for the following purpose :—

The University is to appoint an eminent Savant by advertising to the celebrated Universities of the world to deliver a series of lectures in Comparative Religion quinquennially in the cold season in Calcutta, to be called "Stephanos Nirmalendu Ghosh Lectures, whose remuneration will be paid from the 4 years' accumulated income from the above described Securities, after deducting from it the approximate cost of printing about 1,000 copies of his Lectures.

By a previous arrangement by the Calcutta University with the Lecturer, if he kindly so agrees and one or two other Universities in India so desire, he may deliver such lectures also in other places in India.

It is my desire that in dealing with the subjects of his Lectures it will be the aim of the Lecturer to show that the highest ideal for man is in unselfish love and service to his fellow-man which is the essence of the teachings of Christ.

I shall be glad if my offer is accepted.

From G. C. Ghosh, Esq., 2, Simla Street, Calcutta, to the Vice-Chancellor, Calcutta University, Calcutta, dated, the 11th March, 1919.

In continuation of my letter to you on the 10th instant regarding the foundation of lectures in Comparative Religion by me quinquennially in Calcutta, I desire to say for removal of any ambiguity that the lectures to be arranged by your University to be delivered in other places shall be after such lectures have been first delivered in Calcutta every time.

From G. C. Ghosh, Esq., 2, Simla Street, Calcutta, to the Vice-Chancellor, Calcutta University, Calcutta, dated the 28th April, 1919.

With reference to my previous correspondence regarding the Lectureship on Comparative Religion founded by me, I have the honour to request you to consider this letter as a part of the same for the future guidance of the University and the Lecturers to be appointed under the scheme.

(1) If the University thinks that quinquennial lectures would make the intervals too long for effect and that three years' income from the Endowment will be adequate for securing the service of the Lecturer, the lectures may be given quaternally and the three years' accumulated income may be availed of, instead of four years' as stated in my first letter.

(2) I think it would be well under the circumstances if Rs. 1,000 or so be spent towards the publication of the lectures, instead of having a thousand copies of them published as suggested in my first letter, as I consider the latter measure would mean too much expense in view of the increased cost of paper and printing.

(3) As I have stated in my first letter I beg to state, in order to be more explicit, that my object is to show the young men of my country that it is not meant that men's eternal welfare should depend upon any belief, the interpretation of a particular text or the acceptance of a religious creed, but that he is required to love and serve his fellow beings whereby he would be able to live the life that is required of him by God. It is found that centuries of schools of thought and religious discussions have resulted only in hatred and persecution of those who have sincerely differed from the views dominant at the time, instead of producing love and sacrifice which only are acceptable offerings to God.

(4) My object is not to show the superiority of a particular religion but to show that in the dealing out of man's unselfish love and service to man, i.e., in living the religion of love constitutes the highest advancement of his personality.

From G. C. Ghosh, Esq., 2, Simla Street, Calcutta, to the Registrar, Calcutta University, dated the 5th August, 1919.

"I have the honour to acknowledge the receipt of your letter dated the 2nd instant intimating to me that my offer of one lac of rupees for founding a Lectureship on Comparative Religion to be called "The Stephanos Nirmalendu Ghosh Lectures" has been accepted by your University, and that any suggestions that I might make in its connection your University would take them into consideration and that one lac of rupees in Government Promissory Notes might now be sent by me to the University.

(1) I am glad that your University is willing to let the Lectures be founded by me on the conditions stated in my first letter and I am grateful for its acceptance of the suggestions made by me in my letter of the 28th April last and that it is willing to take any further suggestions that I would like to make about them.

(2) If the University will make the Lectures quaternary as has been desired by me in my letter of the 28th April last, the lectures for the first time will be delivered in the Winter of 1922, and the interest of the Government Promissory Notes for 1919, 1920 and 1921 will be used to meet the expenses of the same.

(3) I trust your University will be so good as to arrange for all things I have desired in connection with the Lectures before they are delivered in Calcutta and elsewhere.

(4) It is my wish the lectures should be delivered in a central academic place where a large audience is expected to gather by previous notifications in public places and in two public prints for the information of the Mofussil people.

(5) I think it would be well if the delivery of the lectures be inaugurated and opened every year by a distinguished gentleman.

(6) I think it would be well also if some University authority will kindly be present during the delivery of the lectures till their end to keep order at the place.

(7) I shall be obliged if you will inform me to whom I shall endorse over and deliver the Government Promissory Notes.

(8) I shall be grateful if I be supplied with the abstracts of deliberations of the University about my endowment from time to time.

(9) In conclusion I beg to suggest for the consideration of the Lecturer that my object is (a) to help the moral and spiritual advancement of my countrymen by helping the unfoldment of the Divinity in them which is calculated to make them truly happy, (b) that the Lecturer will aim to show that excepting the fundamental truths of the Godhead and its attributes, viz., Love, Wisdom, etc., which are acknowledged by all civilized men, creeds, dogmas, canons, etc., of the religions past and present which were necessary in the time of their first promulgation have no permanent value, just as in all living organisms we find elimination of the old and decayed cells is incessantly going on and newer cells are coming forth for the formation of newer bodies. So it may be proper to think that God's revelation was not closed in the past when the creeds, etc., were fixed, and so if the fountain of revelation has not dried up they should not be made to hinder the reign of an ever higher conscience in human mind, if a religion is to be taken as an institution having a norm of life within it. So the true and lasting form of religion will be based upon the inner supremacy of reason purified by revelation above any external authority, dogma, etc., which are inadequate to sustain a feeling of obligation.

Although I venture to make these my humble suggestions, I do not like to make them binding upon any Lecturer who I trust will be a Godfilled man and knowing his duties well."

The generous offer of Mr. Ghosh was thankfully accepted by the Senate at their meeting held on the 29th March, 1919.

The following rules were adopted by the Senate at their meeting held on the 27th September, 1919.

(9) That a Committee of five members be appointed by the Senate in each instance to report on the applications received.

(10) That it be a condition of appointment of each lecturer that he will deliver to the University a complete copy of his lectures within one month after their delivery.

(11) That the Senate be at liberty to invite at any time an eminent scholar to accept the lectureship even though he may not have applied.

Ghose Travelling Fellowships

The Senate adopted the following resolutions on the 30th January, 1914 :—

I. The Syndicate shall annually set apart from the Fee Fund a sum of Rs. 3,000 for the maintenance of a Travelling Fellowship.

II. A Travelling Fellowship of the value of Rs. 3,000, tenable for one year, shall be awarded in 1914 and the four following years. The Travelling Fellowship will be allocated successively to the Faculties of Arts, Science, Law, Medicine and Engineering. If in any year, there is no suitable candidate for the Travelling Fellowship in the particular Faculty concerned it may be placed at the disposal of one of the other Faculties.

III. The Fellowship shall be open to—

(a) all persons who have been at any time admitted to a Degree in the University of Calcutta ;

(b) all persons who have been at any time a Fellow of the University, Honorary or Ordinary, or an Added Member of a Faculty ;

(c) all persons who have at any time held the office of a Professor, Assistant Professor, Reader or Lecturer in the University.

IV. The Travelling Fellows shall be elected by the Senate on the recommendation of the Syndicate, who are empowered to invite applications and frame rules in this behalf.

V. Each candidate for a Travelling Fellowship shall satisfy the Syndicate as to his general ability to profit by a course of study abroad. He shall also submit a general scheme of the work he proposes to undertake during the tenure of his Fellowship.

VI. The Travelling Fellows shall investigate educational methods abroad in their special branches of study (such branch to be determined by the Syndicate in consultation with them)—preferably in Great Britain and in the Continental European seats of learning. They shall submit periodical accounts of their work to the Syndicate and supply such other evidence of the progress made by them as the Syndicate may from time to time require.

VII. Each Travelling Fellow on his return to India shall submit to the Syndicate a full Report embodying the results of his studies and travels which shall be published and be the property of the University.

VIII. The emoluments attached to the Fellowship shall be paid in two half-yearly instalments. The Syndicate shall have power to withhold the payment of the second instalment, if the work done by a Travelling Fellow during first half-year of the tenure of his Fellowship be deemed unsatisfactory by them.

IX. This scheme shall be in force for a term of five years from 1914.

Note.—The outbreak of the Great War made the award of these Fellowships impracticable. Meanwhile, on the suggestion of the Hon'ble Justice Sir Asutosh Mookerjee, the necessary funds were arranged for by Sir Rashbehary Ghose, Kt., C.S.I., C.I.E.

The late Sir Rashbehary Ghose, in his Will, made a bequest to the University, of a sum of Rs. 2,50,000, for the purpose of founding a few Fellowships in the University.

The following is a joint letter from the executors to the said Will on the subject of the bequest.

" CALCUTTA,
The 22nd June, 1921.

To

THE HON'BLE THE VICE-CHANCELLOR
of the Calcutta University.

SIR,

We have the honour to inform you that Sir Rashbehary Ghose, by the seventh clause of his Will, dated the 23rd day of May, 1920 (of which we have recently obtained probate from the High Court), directed us, as his Executors, to make over to the Calcutta University, out of his estate, the sum of Rs. 2,50,000 for the foundation of a few Travelling Fellowships. It is his recommendation that the University should employ the said sum by following the clauses and rules which he recorded in English in the Schedule marked "Ka" to his said Will. A copy of the English translation of the seventh clause to the said Will annexed to the Probate and of the said Schedule marked "Ka" is appended hereto.

We shall feel obliged if you will place the matter before the University in due course for acceptance of the said bequest.

We have, etc.,

HIRENDRANATH DATTA.
BIPINBIHARI GHOSE.
LALITMOHAN GHOSE.
RAMOHANDRA GHOSHAL."

7th Clause of the Will.

"7. I have resolved to found a few Travelling Fellowships, under the supervision of the Calcutta University. In order to defray the annual costs of those Travelling Fellowships, it is necessary to make over Rs. 2,50,000, two and half lacs of Rupees, to the said University. Hence I hereby direct the Executors appointed by this my Will that they should as soon as they can within one year of my death make over Rs. 2,50,000, two and half lacs of Rupees out of my Estate to the said University. It is my recommendation that the Calcutta University should employ the said Rs. 2,50,000, two and half lacs of rupees by following the clauses and rules which I have recorded in English in the Schedule marked "Ka" to this Will."

Schedule "Ka."

1. That the sum of 2½ lacs to be made over to the University of Calcutta be invested in approved Securities so as to produce an income, whenever practicable, of four per cent, per annum.

2. That the entire management of the said fund in all respects whatsoever and the application of its income be, subject to the general control of the Senate, vested in the Board of Management mentioned in my letter of the 8th August, 1918, to the University of Calcutta, founding four University Professorships.

3. That three Travelling Fellowships be founded, each tenable for one year, the Fellows to be remunerated from the income of the Fund.

4. That the Fellowships be open only to persons who have been at any time admitted to a Degree in the University of Calcutta.

5. That the Travelling Fellows be nominated by the Board of Management subject to confirmation by the Senate. The Board of Management shall have power to invite applications and shall satisfy themselves as to the general ability of a candidate for Fellowship to profit by a course of study abroad. Each candidate shall be required to submit a general scheme of the work he proposes to undertake during the tenure of his Fellowship.

6. It shall be the duty of each Travelling Fellow to investigate educational methods abroad (that is, outside India) in his special branch of study or to undertake research in any special branch of learning—such branch and the seats of learning where the investigation is to be carried on to be determined by the Board of Management in consultation with the candidate. The Fellows shall submit periodical accounts of their work to the Board and supply such other evidence of the progress made by them as the Board may, for time to time, require.

7. Each Travelling Fellow shall, on his return to India, submit to the Board a full report embodying the results of his studies and travels which shall be published by and be the property of the University.

8. The emoluments attached to a Fellowship shall be paid ordinarily in advance in two half-yearly instalments. The Board shall have power however to withhold the payment of the second instalment if the work done by a Travelling Fellow during the first half-year of the tenure of his Fellowship be deemed unsatisfactory by them. A Travelling Fellow may be re-appointed or have his term extended at the discretion of the Board of Management.

9. Of the three Fellowships to be awarded each year, at least two shall be allotted to a Scientific subject.

10. The Senate shall have power, on the recommendation of the Board of Management, to frame supplementary rules for the efficient administration of the Fund. Such rules, however, shall in no wise, conflict with the principle laid down above, nor shall have the Senate power, under any circumstances, to spend any portion of the corpus of the Fund but, if one or more Fellowships are not awarded in any particular year on account of lack of suitable candidates or for like reason, the sum unspent may be temporarily invested by the Board and applied in the award of additional Fellowships in any subsequent year.

The bequest was thankfully accepted by the Senate on the 6th of August, 1921.

TRAVELLING FELLOWS.

University Law College

The history of the foundation of the College is set out in the following minute by the Hon'ble Justice Sir Asutosh Mookerjee, Kt., C.S.I., M.A., D.L., D.Sc., Ph.D., F.R.A.S., F.R.S.E., F.A.S.B., Vice-Chancellor of the University.—"The branch of our educational system which stands in need of the most urgent and radical reform is that concerned with the teaching of Law for our Degree Examinations. It is a noteworthy fact that we have not got a single College devoted entirely to the study of Law, as we have in the cases of Medicine and Engineering. When the University was founded in 1857, Law classes were attached to the Presidency College which was in the main, an Arts College. The number of Law students was comparatively small, and the first Professors employed to teach Law were men of considerable distinction. In 1864, the Government decided to attach Law classes to its College at Hughly, Dacca, Krishnagar, Berhampur and Patna. In each case, a distinguished graduate in Law was appointed on a fixed monthly salary, and the best men available from the ranks of the then new batches of Law graduates were engaged. The classes at all these Colleges were comparatively small, and the teaching imparted was more or less efficient from the point of view of the Law Regulations as they existed at the time. In 1869 similar Law classes were attached to the Colleges at Cuttack and Chittagong, and in 1880 Law classes were attached to the College at Rajshahi. Up to the point of time we have reached the Law classes were attached only to Government Colleges, and the fees charged were moderately high; in the case of the Presidency College, the fee was five rupees a month in the First-year Class and ten rupees a month in the Second and Third-year Classes; in the case of other Colleges, it was nowhere less than five rupees a month. In 1882, the authorities of the Calcutta Metropolitan Institution applied for affiliation in Law. The application was granted, and as no conditions were imposed Law classes were opened with a monthly fee of three rupees in the First-year Class, four in the Second, and five in the Third-year Class. The immediate result was that the Presidency College lost the majority of its Law students. Shortly after, the City College was affiliated in Law in 1893. Two years later, the Ripon College was affiliated in Law in 1895 and opened classes at a uniform rate, of three rupees, with the result that the other private Colleges were obliged to come down to the same level. About this time, the Government closed the Law classes in the Presidency College. Since then, another College has been affiliated in Law in Calcutta, namely, the Bangabasi College in 1896, and six Colleges in Mofussil have also been affiliated in Law, namely, Cooch-Behar, Bhagalpur, Midnapur, Bankipur, Barisal and Rangoon. The University, therefore, has at the present time nominally 19 Colleges to which Law classes are attached, but there are really 18 at work, as the Presidency College has had no classes during more than twenty years. The Calcutta Colleges have raised their fee from rupees three to rupees four. In the Mofussil Colleges, the fee ranges from rupees three to rupees six. The classes everywhere in the past were more or less full; but the College which has had the largest number on its rolls is the Ripon College. As regards the efficiency of these Colleges, judged from the point of view of the requirements of the New Regulations, only one opinion is possible; they are nowhere near the mark, and the arrangements,

made, can, at the best, be regarded as nominal compliance with the regulations. The system which has prevailed for many years past in most of the Government Colleges in the Mofussil, namely to pay the Law Lecturer the amount of fees paid by the students has been suicidal. To take one example, in a Government College situated not very many miles from Calcutta, there was during the last session only one student who paid five rupees a month, and for this sum a Government Pleader, who is the Law Lecturer, is supposed to have taken him through a complete course of Law studies. In Calcutta, where the number of students is very large, the state of things has been just the opposite, and the successful endeavour has been made to turn the Law Classes into as lucrative a business as possible. The object has been gained, practically by an entire sacrifice of discipline. A class may have on its rolls 150 students; the Lecturer begins at the appointed time, say 8 o'clock in the morning, with a dozen students; after he has lectured for half an hour, students begin to drop in till the class becomes pretty full when the rolls are called. Proper continuity of work is hardly possible under such circumstances. The majority of the students have no books; they do not intend to listen to the lectures; very many of them are employed as Teachers in Schools or Clerks in Offices and their only anxiety is to get credit for attendance at a certain number of lectures as required by the University Regulations; and it is by no means an unusual incident for a student to get himself marked "present" by a proxy. Not only are the majority of the students irregular and unpunctual in attendance, not only in attendance expressly for the purpose of colourable compliance with the University Regulations—the same laxity characterises, in many instances, the payment of college fees which are often allowed to fall into arrears and sometimes unrealised and lost to the college. All this laxity encourages our graduates to enter themselves largely as Law students, so that at some future time when occasion may arise or when they may find it convenient they may appear at the Examination on the strength of their attendance at these lectures. This is manifestly contrary to the spirit of the new Regulations. The new University Regulations in Law contemplate a thorough training in all the subjects of the Examination. The number of subjects has been increased by the introduction of important branches like Roman Law, Theory of Legislation, Equity and the English Law of Real Property. The number of lectures to be delivered, to cover the course, is considerably in excess of what was required under the Old Regulations. Students are required to attend Moot Courts where legal problems are discussed by them under the presidency of their Professor as judge. This can be done with profit and instruction only if the students have been taken in small batches and taught by their teachers to study and analyse cases and to deduce legal principles from a first-hand study of important judicial decisions. Then again, in the Examination under the New Regulations 40 per cent. of the marks are to be allotted to the solution of questions framed with a view to test the ability of candidates to apply the more important legal principles to concrete cases. The Regulations provide not only that full credit is to be given for well-reasoned answers to such questions, even though the conclusions happen to differ from the views taken in decided cases but also that no credit shall be given for bare answers unsupported by arguments. All this implies a far more thorough training than can be obtained by mere attendance at lectures delivered to large classes of students. Indeed the Regulations assume a thorough grounding in legal principles, and a systematic study of illustrative cases such as can be pursued only in a good Law Library and under the guidance of an efficient teacher placed in charge of a limited number of students. From the point of view of the New Regulations, not one of the Law classes can consequently pretend to make any approach to efficiency. No College has got a good Law Library or a sufficient number of efficient teachers. No attempt is made to enforce discipline among the students. The Bengal Education Department has realised this and I understand that the Law classes attached to all the

Government Colleges in Bengal will be closed from the beginning of the current session. The Government of Eastern Bengal and Assam have also realised the situation, and the Law classes attached to the Government Colleges in the Province will shortly be closed, and will be replaced by a Law School at Dacca, a proposal for the affiliation of which will be submitted to the University by the Director of Public Instruction. So far as the private Colleges out of Calcutta are concerned they cannot possibly satisfy the requirements of the Regulations. So far as the private Colleges in Calcutta are concerned, the authorities of the Bangabasi College have already intimated to the University that they have decided to discontinue the Law classes from the beginning of the ensuing session. So far as the Metropolitan Institution and the City College are concerned, neither of them makes a substantial profit upon the Law classes and if their Law classes are closed, the financial position of the Colleges would not be seriously affected. As regards the Ripon College, with which I shall deal later on, the case is different; this particular College effects a substantial saving upon the Law classes, a portion of which is apparently absorbed in the maintenance of the Arts Department. If the Law classes in the Ripon College are closed, it would mean a substantial loss to the Proprietor. As I have already stated, however, none of the existing Law classes is efficient from the point of view of the New Regulations, and I am not prepared to concede that these Law classes should be allowed to exist either for the maintenance of the Arts classes or for the profit of the Proprietors. Under Section 7, Chapter XIX of the Regulations, the University is called upon to submit the case of each College to the Government of India and I feel no doubt that neither the Syndicate nor the Senate can, with any sense of self-respect, recommend the continuance of the present system which has been a serious blot on our educational methods for many years past. I invite the University, therefore, to face the situation, and refuse to countenance any longer what has hitherto prospered under the name of legal education. The only solution of the situation is to close all the Law classes and for the University, to found a Law College, like the Law Colleges in Madras, Bombay and Allahabad. The Law Colleges in the other Provinces are owned and maintained by Government; the Law College proposed by me will, however, be a University College, though we may thankfully accept any aid which the Government may give. I do not desire it to be understood, however, that I claim any monopoly for the University Law College as I have already stated there will be a similar Law School, though on a smaller scale, at Dacca and I trust that at no distant date, there may be a well-equipped Law School for Behar at Bankipur. It is not inconceivable also that with liberal endowments a Law College may be established in some other part of the province. But whenever or wherever such an institution may be established, and whoever may maintain it the essential condition for its affiliation to the University must be that it is *bona fide* centre of legal education. I shall now give an outline of my scheme.

The University Law College shall be under the management of a Governing Body of Twelve members, constituted as follows:—

1. The Vice-Chancellor, *Ex-officio* President.
- 2-4. Three Judges of the High Court (to be nominated by the Chief Justice of Bengal in consultation with the Vice-Chancellor).
5. The Advocate-General of Bengal, *Ex-officio*.
- 6-7. One member of the Bar and one Vakil of the High Court. (Both to be nominated by the Faculty of Law).
8. The Legal Remembrancer to the Government of Bengal.
9. The Director of Public Instruction, Bengal.
10. The Principal of the Law College.
- 11-12. Two Lecturers of the College to be elected by the Staff.

Members of the Governing Body shall be elected annually. Occasional vacancies shall be filled up by the Syndicate, upon the recommendation of the body entitled to elect.

The management of the College shall be vested in the Governing Body, but their proceedings shall be subject to confirmation by the Syndicate.

As the Governing Body described above cannot be completely constituted till the College has been actually established and the Principal and the staff appointed, a provisional Committee shall be appointed by the Syndicate.

The College shall have a whole-time Principal who shall not be allowed to practise in Courts. His salary shall be Rs. 800 a month rising to Rs. 1,000 by annual increment of Rs. 50. It may be added that each of the Law Colleges in the other Provinces has a whole-time Principal, and it does not require any argument to show that some one must make it his business to look after the College and to maintain it in a state of efficiency.

If we assume that there will be 150 students in each class there must be in addition to the Principal, one Professor on Rs. 200 a month, and 8 Assistant Professors on Rs. 150 a month. For a larger number of students, the staff will have to be proportionately increased.

The Principal shall lecture two hours a day, and the Professor one hour a day, during at least 30 weeks in the year (this would include systematic lectures as well as sittings of the Moot Court). The Assistant Professors will take the students in batches of twenty. Each Assistant Professor will, therefore, have under his charge 20 First-year and 20 Second-year students. He will, on alternate days, take the two sets of students to the Library for tutorial work and discussion of cases, during, on an average, 2 hours a day; he will also give the students under his charge regular weekly exercises or subjects for essays which will be corrected and returned. The duty of each Assistant Professor, therefore, will be discussion with the students 2 hours every day and correction of forty exercises a week. Each student, will, thus, have 9 hours' lectures a week and 6 hours work a week in the Library. This, I think, is a very moderate demand to make, and I shall not be surprised if it is found necessary to increase the quantity of work later on. What I have suggested is extremely moderate in comparison with the work demanded from students in Law Colleges elsewhere which have reached a high degree of excellence, for instance, Columbia and Harvard in the United States and Tokyo in Japan. I do not doubt, however, that even the moderate beginning in earnest work which I propose, will reduce the existing number of nominal students who now swell the rolls. In the University College no one, I hope, will take his admission who does not seriously wish to undertake the study of Law, and, for myself, I do not wish anybody else to come near the place. No one, I trust, deems it the duty of the University to encourage or countenance a system under which the very first art practised by young aspirants for entrance into a learned and honourable profession is defiance of discipline and evasion of the University Regulations.

The monthly recurring expenditure will be Rs. 2,200 in the first year. I have estimated the number of students at 300. The tuition fee must, therefore, be fixed at Rupees eight a month, which is, by no means, too high, if we consider the quality of training we propose to give. In any event, a Law student, even under the conditions I propose, will have to spend less, and will have much easier life than a medical or an engineering student. I am in a position to add, however, that the Government of Bengal is prepared to make an annual grant, to be devoted to reducing the fees of students by the grant of scholarships at the discretion of the Governing Body; the amount of the grant will be Rs. 3,500 a year for the first five years, and will be subject to reconsideration at the end of that period. With this sum at our disposal we may, for instance, institute about one hundred and forty-five studentships of Rs. 2 a month to be given to deserving students upon the results of work done in the College. The effect of this arrangement will be that deserving students will, practically, have to pay a fee of Rs. 6 only a month.

The College must have a good Law Library; Rs. 30,000 to start with is a moderate estimate. I suggest that this amount be provided from the University

Reserve Fund. In addition to this, the Government of India and the Government of Bengal are prepared to help us and to place in the Law College Library, for the use of Law students, several sets of the Indian Law Reports and other Law Publications of the Government of India and of the different Local Governments. "

The College must be suitably located. There will be no difficulty in providing proper theatres in the University Buildings which we propose to erect at once on the land recently acquired by the University towards the west of the Senate House. I would also suggest that of the Reading Rooms in the Darbhanga Library Building, eight may be fitted up with small working Libraries where the students may read under the guidance of the Assistant Professors.

If the scheme is approved, I hope to be able to get everything ready so as to be in a position to open the Law College in July, 1909.

I have given, I hope, an intelligible outline of the proposed University Law College. The details, of course, will require careful consideration and must be left to the Provisional Committee. I wish it to be understood also that the details I have suggested may require modification in the light of experience.

There are two other questions which incidentally arise and deserve consideration; the first of these relates to what are known as Pledership students and the second, to the Ripon College.

As regards the Pledership students, they are required under Rules, framed by the High Court (Chapter XI, Rule 6 of the High Court Rules, page 263), to attend lectures at one of the Colleges affiliated in Law to the Calcutta University, before they are allowed to appear at the Pledership Examination. The University is not directly concerned with these students, and if a strict view is taken of the scope of the University Law College, it may well be contended that these Pledership students ought not to find any place in our institution. It will be a matter for the authorities who controlled that Examination to decide whether the Rules ought to be so modified as to allow Pledership students to read in some one or all of the existing Law Classes. If such a course is adopted—as may well be on the ground that the Pledership course differs in some essential respect from our B.L. Course—we shall have nothing to do with the Pledership students. If, however, the High Court desires that the Pledership students in future should undergo the same kind of training as we propose to give to our B.L. students, and if the University consents to find accommodation for them, we may very well ask the Government to give us substantial aid. The question of the provision to be made for the education of Pledership students, however, obviously does not concern the University directly, and cannot deter or delay any action which the University may find essential in the true interests of the education of its Law students.

Next, as regards the Ripon College, I have already stated, that it makes a substantial profit out of the Law classes; the withdrawal of affiliation in Law will therefore mean loss to the Proprietor. I do not hesitate to say that this ought not to deter or delay that action on the part of the University which is essential in the interests of sound education and discipline. At the same time, I think the University may, if the Proprietor so desire, assist him to put the College finances on a sound basis. I have before me the Report of the University Auditor on the College Accounts, such as they are. One fact is patent. A large amount of money is annually lost in the B.L. classes, in the Pledership classes, as also in the Arts classes, by reason of great laxity in the realisation of fees from the students. The remedy for this lies in the hands of the Proprietor himself. In the next place, it seems to me clear that if the Arts classes are to be made self-supporting, the college fees must be raised, and a rise of even one rupee a month in the fee paid by each student would bring in a considerable sum, nearly sufficient to make up for the loss likely to be caused by the abolition of the B. L. classes. If the Pledership classes are also abolished, there would perhaps, be no margin left for the Proprietor; if, however, the High Court is satisfied that the Pledership classes can be remodelled, so as to meet the requirements of that description of students, and

if the High Court recognises the Pledership classes, there would be a margin left for the Proprietor. The condition of this particular College and of some of the other Private Colleges in Calcutta suggests to my mind that it may be desirable for the University to arrange for University Lecturers to teach the B.A. and B.Sc. Honours Courses. If this idea is carried out, as has already been recommended by the Syndicate, the pressure upon these Colleges in the Arts department would be considerably reduced. I may add that if one or more of these Colleges will seriously consider the question of a small rise in the fees levied from Arts students, the Syndicate may very well help them to come to a common understanding upon the point, so as to avoid the unfair competition referred to in Section 6, Clause (i) of Chapter XVIII of the Regulations. The University may reasonably be expected to assist the Colleges so as to facilitate their work, but I maintain, at the same time, that the University ought not to be expected to countenance a thoroughly unsound system which is misnamed legal education for the benefit of either Arts Classes of Colleges or of their Proprietors."

The above Minute was considered by the Syndicate at their meeting on the 4th July, 1908, when the following Resolution was adopted :—

"That the Syndicate recommend to the Senate that a University Law College be established and that the Syndicate be authorised to appoint a Provisional Committee to organise it."

The Minute was also considered by the Faculty of Law at a special meeting held on the 14th of July, 1908, when the following motion was carried :—

"That the Faculty do record its opinion that for the promotion of legal education of students for degrees in Law, it is desirable to establish a University Law College, to serve as a model College, but not so as to create a monopoly either general or local."

On the 21st July, 1908, upon the motion of the Hon'ble Vice-Chancellor the Senate unanimously accepted the recommendation of the Syndicate and the Faculty of Law that a University Law College be established. This resolution of the Senate subsequently received the sanction of the Governor-General in Council on the 25th August, 1908, and the College was formally affiliated to the University in Law with effect from July, 1909.

The College is under the management of a Governing Body, consisting of sixteen members, constituted as follows :—

- I. The Vice-Chancellor, *President, Ex-officio*.
- II-IV. Three Judges of the High Court (to be nominated by the Chief Justice of Bengal in consultation with the Vice-Chancellor).
- V. The Advocate-General of Bengal, *Ex-officio*.
- VI. The Senior Government Pleader of the High Court, *Ex-officio*.
- VII-IX. Three members nominated by the Faculty of Law, one of whom at least, shall be a member of the Bar and one a Vakil of the High Court.
- X. One Representative of the Incorporated Law Society.
- XI. The Legal Remembrancer to the Government of Bengal, *Ex-officio*.
- XII. The Director of Public Instruction, Bengal, *Ex-officio*.
- XIII. The Principal of the Law College, *Ex-officio*.
- XIV. The Vice-Principal of the Law College, *Ex-officio*.
- XV-XVI. Two Lecturers of the College to be elected by the staff.

The members of the Governing Body are appointed annually. They hold office during the academic year for which they are appointed, occasional vacancies being filled up by the Syndicate upon the recommendation of the Body entitled to appoint.

At meetings of the Governing Body, seven Members form a quorum.

The proceedings of the Governing Body are subject to confirmation by the Syndicate.

The staff of the College consists of a Principal, a Vice-Principal and as many Professors as are needed to meet the requirements of the students.

Each of the three years' course will comprise not less than 200 working days. There will be three terms in each year, the first of which will extend from the last week of June to the end of September; the second from the beginning of November to the end of the third week of December; and the third from the beginning of January to the middle of April.

Since the session 1918-19, the teaching arrangements in the College have been entirely re-organised in accordance with the scheme outlined in the following memorandum by the Hon'ble Justice Sir Asutosh Mookerjee, Kt., C.S.I.—

"The unsatisfactory system of training of Law students, which prevailed in our colleges before the University Law College was founded, is described in a memorandum drawn up by me on the 1st July, 1908, and printed in the University Calendar for 1917, Part 1, pages 112-117. The System now in force marks a considerable advance upon the pre-existing condition of things, but stands in urgent need of further improvement in essential particulars.

Under the present system, the students are taught in two types of classes. In one type of classes, the students are required to attend three lectures a day, two of them delivered to a class of 150 students each, the other to a class of 25 students commonly known as a tutorial class. Each of these lectures extends over a period of 45 minutes, so that the student attends lectures which occupy him for two hours and fifteen minutes. In the other type of

classes, the students are required to attend two lectures a day each extending over one hour; each of these classes comprises on an average from 50 to 60 students. There is also some arrangement for written exercises, but it is of so inadequate a character that no further reference need be made to the subject. There are, in addition, moot courts. Cases are prescribed in advance to be studied by students; these are thereafter, argued by them in the class with the Professor in the chair. It is obviously impossible for every student to take part in these discussions and as a matter of fact in each class there is a small group of students who systematically join in the debate, while the others somewhat listlessly watch the proceedings.

The vital defect of the present system is that it does not ensure independent work on the part of the student; he is supposed to listen patiently to long courses of lectures, and if he is specially diligent, to take down notes and analyses with a view to commit them to memory; in other words, he is supplied with pre-digested food which he is expected to assimilate. But if there is any branch of study which requires independent thought on the part of the students it is unquestionably law, and he should be made to cultivate from the earliest period, that habit of clear and accurate thinking which is essential for the attainment of professional success. This point of view has pressed itself upon my mind for some time past, but I have not been able hitherto to suggest a complete re-organisation of the teaching arrangements in the University Law College, by reason of financial considerations. At the time of the establishment of the College, in 1909, we found it necessary to draw from the general funds of the University a considerable sum of money for the equipment of the library; year by year, the sum advanced has been paid back in instalments and on the 30th June of the current year, the final balance due will be repaid. From the commencement of the ensuing academic session, we shall thus be in a position to spend the whole of our income for the benefit of the students. In these circumstances, I venture to ask the indulgence of my colleagues on the Governing Body, to place before them proposals for a more efficient scheme of legal studies for the benefit of our students than has hitherto been found practicable.

The two principles which underlie my proposals are as follows:

- (1) The number of formal lectures which each student is required to attend should be reduced;
- (2) Each student should be required periodically to compose a short essay on a prescribed subject, after he had an opportunity to study it under the guidance of his teacher, who would suggest a suitable course of reading therefor;
- (3) These exercises would be submitted to the teacher, who would correct them at home, and would subsequently meet the students in small groups, to discuss with them points which arose on the exercises and any cognate topics.

After careful consideration of the entire course prescribed by the Regulations, I am inclined to adopt the view that no student need be required to attend more than one lecture a day, and that each student should be required to compose under tutorial guidance as indicated above one essay every two weeks. The college session covers from 25 to 30 weeks; each student will consequently be expected to prepare from 12 to 15 essays during the whole year. This I do not consider to be too exacting, and I trust that if a student faithfully does his work, he will cultivate that habit of accuracy and conciseness which is absolutely essential for a successful career in the profession. In addition to this, the arrangements for moot courts will be continued, as required by the Regulations,

The maximum number of students who can be accommodated in the College in the morning and the evening classes, is 2,400; the highest number we had on our rolls was during the last session, viz., 2,180. If we fix the number at the maximum, we have to arrange for approximately 800 students in each of the three classes, as we have under the Regulations a three years' course of Law study. I would divide each class into sections of 100 students at the most. Each section will be subdivided into two groups for delivery of the formal lectures and

four groups for purposes of tutorial work. Each section of 100 students will then be placed in charge of two teachers each lecturing on half the course and each taking the tutorials in his special subjects. The duty of each teacher, whether appointed chairman or not, thus, will be as follows:

(1) to deliver, on six days in the week, one lecture a day to a class of 50 students at most, extending over one hour;

(2) to correct 25 exercises a week,

(3) to meet 25 students in group of 8, on three days in the week (one hour each day). As the correction of exercises will be done at home, each teacher will have to attend in the University buildings 9 hours in the course of the week.

(4) To attend, at a stated time, once a week in the University Buildings a meeting of teachers in the special subject including the Chairman, with a view to fix the subjects for tutorial work, to consider and prepare the syllabus, to discuss the progress of work, to compare notes of their experience, and generally to transact all such business as may be necessary for the proper co-ordination of the work of instruction.

(5) to hold Moot Courts on stated occasions.

The work of each student will be as follows:

(1) to attend one lecture a day, every day in the week;

(2) to compose one essay in two weeks;

(3) to attend a tutorial class for one hour, once in two weeks;

(4) To attend Moot Courts as directed.

This scheme will require a staff of 48 teachers, namely, two for each of the 24 groups of 100 students. It is manifest, however, that some links must be provided for co-ordination of the work; it would be disastrous, indeed, if each teacher were left free to follow his own way without consultation with such at any rate of his colleagues as might be engaged in dealing with the same subject as he himself was teaching. It would consequently be necessary to group together the teachers in each subject and to appoint a Chairman for that group. Each group, under the guidance of its Chairman, should meet at stated times in the University Buildings, fix the subjects for tutorial work, discuss how the work was progressing, and compare notes of their experience. Let me take a concrete illustration. In the Second-year Class, each student is required to attend lectures on four subjects, namely (1) Muhammadan Law, etc., (2) Transfer of Property, (3) Real Property and Succession, and (4) Contracts and Torts. We shall have 16 teachers for the 8 sections of 100 students each; eight of these teachers will take up the first two subjects in the 8 sections, the remaining eight will take up the other two subjects in those sections. Each group of 8 teachers will have a Chairman, to be selected with due regard to seniority and academic distinction. As there will be 6 such groups in the three Classes taken together, we shall require $48 + 6 = 54$ teachers. In addition, we have the Principal and the Vice-Principal, who in spite of their heavy administrative duties, may be able to participate, to a limited extent, in the work of instruction or supervision as Chairman. I would further suggest that the gentlemen appointed as Chairmen may not only secure that the work by the several groups of teachers with whom they will be respectively associated is properly organised but they themselves may very well be expected to deliver during the year, short courses of 4 to 6 public lectures on important topics selected at their choice. These lectures may be thrown open to all Law students in the University, and the Professors may also be encouraged to publish them, if they are allowed to retain the copyright.

I am inclined to think that it would be an advantage to constitute a small Council, consisting of the Principal, the Vice-Principal and the 6 Chairmen, to exercise general supervision over the whole teaching work of the institution and if it is found necessary to associate myself with this body in effectively

carrying out the scheme of re-organisation, I shall cheerfully find time for the work."

The above scheme was modified by the Governing Body on the 17th May, 1921, and the following modified scheme has been in operation since then :—

(i) The duty of each teacher whether appointed Chairman or not will be as follows :—

(a) To deliver on six days in the week one lecture a day to a class of fifty students ordinarily extending over one hour.

(b) To correct twenty-five exercises ordinarily every week.

(c) To meet twenty-five students ordinarily in groups of eight on three days in the week (one hour each day).

(d) To attend, at a stated time, once a week in the University Buildings, a meeting of teachers in the special subject including the Chairman, with a view to fix the subjects for tutorial work, to consider and prepare the syllabus, to discuss the progress of work, to compare notes of their experience, and, generally to transact all such business as may be necessary for the proper co-ordination of the work of instruction

(e) To hold Moot Courts on stated occasions.

(ii) The work of each student will ordinarily be as follows :—

(a) To attend one lecture every day in the week.

(b) To compose one essay in two weeks.

(c) To attend a tutorial class for one hour once in two weeks.

(d) To attend Moot Courts as directed.

(iii) The duties of the Chairman in each subject, apart from his duties as Professor, shall be as follows :

(a) The staff in each subject, that is, the Chairman in consultation with his colleagues, shall prepare a syllabus of the lectures to be delivered in the subject so as to cover the course prescribed by the University. To the syllabus for each lecture will be appended hints for reading for the guidance of the students. Each syllabus will be printed and copies furnished to the members of the staff and students.

(b) The staff in each subject, that is, the Chairman in consultation with his colleagues, will draw up a detailed programme for tutorial work indicating hints for reading in the case of each topic. These may be printed and circulated as in the case of the syllabus.

(c) The staff in each subject, that is the Chairman in consultation with his colleagues, shall draw up a detailed programme of topics and cases for discussion in the Moot Courts with hints for reading. These may be printed and circulated as in the case of the syllabus and programme for tutorial work.

(d) The staff in each subject, that is the Chairman and his colleagues, should meet ordinarily once a week during term time.

As regards the lectures, they will consider how far the scheme as outlined in the syllabus was being practically carried out and determine from time to time the alterations, if any, required in the syllabus.

As regards the tutorial work, each Professor will send to the Chairman the Exercise Books corrected by him. The Chairman will, in his discretion, examine at least two books from each group taken at random with a view to ascertain the nature of the work done by the students. The Chairman will discuss with the Professor concerned what steps, if any, should be taken to set right defects he may notice in the work. All questions of importance thus brought to light shall be considered at the weekly meeting of all the teachers concerned and may, if necessary, be submitted to the Council for consideration and orders.

University School of Mining at Ikhra.

Mr. Frankista Chatterjee of 115A, Amherst Street, Calcutta, offered, in the following letter addressed to the Hon'ble the Vice-Chancellor, to make over to the Calcutta University his school at Ikhra with buildings and 100 bighas of land and rupees ten thousand in cash for the equipment of a laboratory suitable for mining students together with an annual grant of 1,800 rupees chargeable upon his estate for the purpose of starting a University Mining School :—

115A, AMHERST STREET, CALCUTTA.

The 1st September, 1921.

To

THE HON'BLE SIR ASUTOSH MOOKERJEE,

Vice-Chancellor, Calcutta University.

SIR,

For some time past I have entertained a strong desire to open up facilities for instruction in Mining in this Presidency. I feel much attracted by your successful efforts to promote scientific and technical training by the establishment of the University College of Science and Technology, and I venture to approach you in the hope that my humble offer of assistance in the direction indicated will receive favourable consideration at the hands of the University authorities.

I have maintained for many years at Ikhra (near Raneegunj) a school named Basanti-Bejoy H. E. School, which has been recognised by the University as qualified to impart instruction up to the Matriculation standard. The school is very largely residential and has, I venture to think, a record of successful work to its credit. The school grounds occupy an area of nearly 30 bighas on which stand the school building and the hostel for students and teachers. Ikhra is situated in the very heart of the coal district and is an obviously suitable place for the establishment of a Mining School.

It is my desire that the University may establish a University School of Mines at Ikhra; the beginning may be modest, but doubtless there will be considerable development before many years elapse. With this object in view, I am prepared to make over to the University in perpetuity the following properties :—

(1) One hundred bighas of land at Ikhra. (Value—about Rs. 50,000.)

(2) The Basanti-Bejoy H. E. School with its furniture and appurtenances to be managed and maintained by the University and to be developed into a University School of Mines.

(Value of buildings and furniture—about Rs. 75,000.)

NOTE.—I shall complete the buildings now in course of erection and put in order the existing building. (Estimated cost—about Rs. 10,000.)

(3) Rupees Ten thousand in cash for the equipment of a Laboratory suitable for Mining students.

(4) An annual grant of Rs. 1,800 charged upon the estate left by my late father, Babu Bejoy Gobinda Chatterjee, under the terms of his will.

(Capitalised value Rs. 30,000.)

The Institution should be placed by the University under the management of a Committee composed as follows :—

1. The Vice-Chancellor of the University, President, *Ex-officio*.

2-3. Two members of the Senate (elected annually).

4. One member of the Faculty of Science (elected annually).
5. One member of the Faculty of Engineering (elected annually).
- 6-7. One University teacher in Geology and one University teacher in Mining (elected annually by the Council of Post-Graduate Teaching in Science).
8. One Member to represent the Department of Industries (annually nominated by the Minister in Charge).
9. Director-General of Geological Survey of India, *Ex-officio*.
10. The Head of the Institution, *Ex-officio*.
11. One representative of the staff in the General Department of the Institution (annually elected by them).
12. One representative of the staff in the Mining Department of the Institution (annually elected by them).

The Hon'ble Sir Asutosh Mookerjee shall always be a Member of the Committee, if he has not otherwise a seat thereon.

There shall in addition be an Advisory Board which shall also act as a Board of Visitors. The Board shall be constituted annually by the Senate and shall include one representative of the Department of Mines of the Government of India and one person possessing intimate knowledge of the working of mines.

As soon as this offer is accepted by the Senate, I shall take the necessary steps to execute the requisite deeds in favour of the University.

Yours sincerely,
FRANKRISHNA CHATTERJEE."

PREMCHAND ROYCHAND RESEARCH STUDENTSIPS.

Premchand Roychand, Esq., of Bombay, in a letter to the Government of India, offered, to make a donation of two lakhs of rupees to the Calcutta University, and on the 9th February, 1866, paid over this amount to the Government of India, to be transferred to the University and held by it as a Body Corporate, under Section 2 of Act II of 1857. Mr. Premchand Roychand further expressed a hope, "that the money should be devoted to some one large object or to a portion of some large object for which it might in itself be insufficient."

The Senate, at a meeting on the 21st July, 1866, accepted Mr. Premchand Roychand's munificent donation, and directed that it should be invested in 5 per cent. Government Securities.

The Senate, at its meeting, held on the 2nd May, 1908, approved the following rules for appropriating the proceeds of the donation :—

1. Six Studentships of Rs. 1,400 a year, each to be called the "Premchand Roychand Research Scholarship," shall be maintained on the interest of the endowment.

2. Any graduate of the University of Calcutta, who has passed the Examination for the Degree of Master or Doctor in any Faculty, during twelve years from the time that he passed the Entrance or the Matriculation Examination, shall be eligible for only one of these Studentships.

5. The Literary Subjects shall be as follows :—

Each application shall state (a) the academical distinctions which the candidate has obtained; (b) the subject in which he has specialised; (c) any research or investigation which he has made in the selected subject or in any allied branch of knowledge; (d) the subject in which he intends, if elected to a Studentship, to carry on special investigation or research. Every candidate shall produce a thesis dealing with some subject in which he has carried on or intends to carry on research. Every candidate shall also state whether the research or investigation which he intends to undertake will be carried on in any particular Library or Laboratory and, if so, what facilities are available. Every candidate shall further produce along with his application testimonials to satisfy the Syndicate that he is in habits and character a fit and proper person to carry on the research which he proposes to undertake.

7. The Syndicate shall, as soon as possible, after the applications have been submitted, appoint two special Boards, one to report on the applications in the Literary Subjects, the other to report on those in the Scientific Subjects.

The candidates shall not be required to submit themselves to any written, oral or practical examination; but either special Board may, at its discretion, require a candidate to appear before it with a view to ascertain precisely the nature of the research or investigation in which he has been previously engaged or which he wished to undertake if elected to the Studentship. 10. If, in any year, a Studentship in Literary or Scientific subject is not awarded on the ground that there is no candidate in that particular group of subjects qualified to receive it, it shall be competent to the Syndicate to award that Studentship in the other group of subjects in the same year or in any subjects in any subsequent year.

12. If it is proved to the satisfaction of the Syndicate that a student has undertaken no research or investigation or has abandoned it or has otherwise acted in contravention of the terms upon which the Studentship was granted, they may, at any time, suspend the payment of the monthly stipend.

13. The Syndicate shall, whenever practicable, arrange for the publication of such of the researches of Premchand Roychand Students as may appear to be of special value or excellence.

14. The names of the Premchand Roychand Students, past and present, shall be printed in the Calendar after the names of the Fellows.

PRESIDENCY COLLEGE, CALCUTTA.

His Excellency the Right Hon'ble Victor Alexander George Robert, Earl of Lytton, M.A., P.C, G.C.I.E., Governor—Visitor.

AFFILIATED, 1857.

The Presidency College was established on the 15th June, 1855, under orders from the Honourable the Court of Directors of the East India Company. The circumstances of its establishment connect it closely with the Hindu College or Mahavidyalay, founded by a number of Hindu Gentlemen, aided by Sir Edward Hyde East, Chief Justice of the Supreme Court, and opened in January, the 20th, 1817. This origin connects the Presidency College with the Hindu and Hare Schools, and more specially with the former which continues the Junior Department of the Hindu College, as Presidency College continues the Senior. The Graduate Scholarships attached to the Presidency College, of which particulars are given below, are a consequence of this connection, being derived from the Hindu College Fund.

Presidency College is thus in its beginnings carried back to the first efforts to promote liberal education in British India and is associated with David Hare and Raja Rammohan Ray, who were the inspirers of the movement which led to the foundation of the Hindu College.

From 1855 to the present year the Presidency College has been administered by the Education Department under the Director of Public Instruction, Bengal. In 1909 a Governing Body was constituted in accordance with Chapter XIX of the University Regulations, and met for the first time on Tuesday, March 8th, 1910.

In December, 1914, His Excellency Lord Carmichael, first Governor of Bengal, became the Official Visitor of the College, a title which H. E. Lord Lytton has also consented to accept.

Courses of Study.—Post-Graduate Teaching is now under the control of the University. The College is affiliated to the B.A. Honour stage in English, Philosophy, History, Political Economy and Political Philosophy, Sanskrit, Pali, Persian and Arabic, and in Vernacular Composition : and to the B.A. and B.Sc. Honour stage in Mathematics, Physics, Chemistry, Physiology, Geology and Botany.

Admission.—Presidency College since its foundation has been open to all classes of the Community, the only condition of eligibility being compliance with the requirements of the University. Since 1907, owing to increase of numbers and in conformity with the letter and spirit of the new Regulation introduced in 1906, admissions have been strictly limited by consideration of space and efficiency of teaching.

The limit fixed for the under-graduate classes is a total of 650, distributed as under :—

			Arts		Science
1st-year	65	...	65
2nd "	80	...	85
3rd "	75	...	80

More particular information as to conditions of admission and choice of subjects is obtainable on application to "The Steward, Presidency College."

SIBLEY SCHOLARSHIP.

The late Mr. George Sibley, formerly a Fellow of the University, bequeathed all his shares in the Ghosery Cotton Mills Company Limited to the Senate of the University "upon trust to found Scholarships of the value of Rs. 50 per mensem for graduates of the University in Civil Engineering, with power to divert from time to time any portion of the income not exceeding an equal moiety in any other way, which may in the opinion of the Senate be better

calculated to further the study of Engineering Science among the natives of India." At the time of his death Mr. Sibley owned 225 shares in the above-named Company, their nominal value being Rs. 200 each. Of these, 25 shares had to be sold to meet the claim of the Indian Revenue authorities in England demanding a legacy duty of 10 per cent. of the value of the shares and of the amount of any dividends received or accrued since the testator's death and to pay the Attorney's bill of costs. The remaining 200 shares together with dividend warrants for Rs. 800, were made over to the Secretary and Treasurer, Bank of Bengal, with instructions to sell the shares at their market value, and to invest the sale proceeds and the amount of dividends in the 4 (reduced to $3\frac{1}{2}$) per cent. loan of 1865. The Faculty of Engineering at its meeting held on the 22nd March, 1893, recommended to the Syndicate that out of the interest of the above endowment one Scholarship, to be called the Sibley Scholarship, of Rs. 30 a month tenable for two years, be awarded annually (1) to any B.E. at the end of his practical course who attends and works regularly in an Electrical Laboratory or in an Electrical Workshop; or (2) to any B.E. who is *bona fide* working in a mine. The selection of the scholar to be according to their standing in the B.E. Examination, and each scholar to be required to submit to the Registrar a certificate of good conduct at the end of each month. Scholarships for Study outside India.

REVISED RULES.

GOVERNMENT SCHOLARSHIPS TENABLE IN THE UNITED KINGDOM BY INDIANS.

No. 399, dated Simla, the 1st May, 1916.

RESOLUTION—By the Government of India, Department of Education.

Three questions of importance have lately been engaging the attention of the Government of India in connection with the policy regarding State scholarships :—

(a) The advisability, in the interest of female education in this country, of assisting and encouraging Indian women to receive a medical training outside India in the United Kingdom or elsewhere ,

(b) The insufficiency, in some cases, of the existing rates of Government scholarships ; and

(c) The difficulty of securing the admission of State scholars to the Universities of Oxford and Cambridge.

2. The importance of (a) has been emphasised by the recent institution of a medical service for women in India. Moreover the provision of facilities for a course of training in Europe should increase the attractiveness of the study of medicine as well as afford an inducement and an opportunity for the best women graduates to undertake special courses of training abroad. The Government of India have accordingly invited and obtained the approval of the Secretary of State to the grant from Imperial revenue, to an Indian woman graduate of one scholarship annually, tenable in the United Kingdom or with special sanction, in foreign countries. This scholarship, however, will not necessarily be confined to the study of medicine but will also be available for training in certain other subjects. The general practice will be that while the scholarship will usually be awarded for the study of medicine, it may also be available for a candidate who desires to undertake some other educational or professional course. Further particulars regarding the scholarship will be found in Appendices I and II. The first scholarship will be awarded in 1916.

3. As regards paragraph 1 (b), it has been found that in the case of scholars residing at an Oxford or Cambridge College the allowance of 200*l.* a year is sufficient only to cover the necessary expenses of college life and permits little margin for vacation and other expenses. The existing allowance of 150*l.* in the case of Oriental scholars is also considered inadequate. Hence after consultation with Local Governments and with the sanction of the Secretary of State the Government of India are pleased to announce that—

(a) The value of the two Government of India University scholarships and of the scholarships granted to a male member of the domiciled community which are mentioned in paragraph 6 (a) and (c) of this resolution shall be raised from 200*l.* to 250*l.* a year when held in a College at Oxford or Cambridge.

(b) The value of the language or Oriental scholarships which are mentioned in paragraph 6 (d) of this resolution shall be raised from 150*l.* to 200*l.* a year on the understanding that the holders of these scholarships will in future be required to pay their own University fees; and it will be further increased to 250*l.* a year on the same understanding when the scholarship is held in a College at Oxford or Cambridge.

(c) Before a male scholar leaves India his parent or guardian must show that he has sent to the Secretary for Indian students in London a sum of 25*l.* for initial outfit expenses. In the case of a technical scholar the sum of 15*l.* will be sufficient.

4. With regard to paragraph 1 (c), the difficulty of securing admission to colleges at Oxford and Cambridge is largely due to the late date on which applications for admission on behalf of State Scholars are often received. The Secretary of State has recently pointed out that, to ensure success, such applications, accompanied by the requisite testimonials should reach the Secretary for Indian Students in March or April each year. The importance of the early and punctual submission of the nomination of Scholars was therefore brought to the attention of Local Governments and Universities. As will be observed from this Department's letter No. 2428-2432, dated the 24th December, 1913, nominations for University scholarships are required to be submitted in the spring or earlier. The Government of India have been in communication with the Secretary of State regarding this matter and have ascertained that, in cases where delay is inevitable through the necessity of awaiting examination results, arrangements for the admission of scholars to Oxford and Cambridge Colleges may be made, provided that the selection is reported to the Secretary of State by telegram early in June and testimonials forwarded during that month. In order that this may be done the Government of India desire that in the case of all State Scholarships applications should be received on or before May 15th at the very latest. Nominations submitted after that date cannot be considered, as otherwise the interests of all concerned may be affected adversely. It is hoped that by this means the arrangements made for the admission of State Scholars to the English Universities, and especially those of Oxford and Cambridge, will be rendered more effective.

5. For the sake of convenience the present opportunity is taken to supersede and collate all previous resolutions and orders on this subject, and to issue the present resolutions, the appendices to which deal with State Scholarships of all kinds held abroad and the rules relating to them. It is proposed, instead of issuing supplementary instructions which may be required in future, to embody them in re-issues of the present appendices. It is thought that this method will be convenient to the public, since enquiries regarding the conditions of these scholarships are frequent.

6. The Government of India have from time to time sanctioned from Imperial revenues the following State Scholarships (including that established in this resolution) tenable abroad by students of this country:—

(a) Two scholarships of 200*l.* to 250*l.* [*vide* paragraph 3 (a)] to be awarded annually by the Universities (*vide* the Government of India, Home Department, Resolution No. 1-45-57, dated the 12th February, 1886).

(b) Ten technical scholarships of 150*l.* to be awarded annually to statutory natives of India (*vide* the Government of India, Home Department, Resolution No. 41, dated the 20th January, 1904).

(c) One scholarship of 200*l.* or 250*l.* [*vide* paragraph 3 (a)] to be awarded annually to a male student of the dominated community (*vide* the Government of India, Home Department, Resolution No. 221-238, dated the 19th March, 1907).

(d) Two scholarships of 200*l.* or 250*l.* [*vide* paragraph 3 (b)] to be awarded annually for the study of Oriental languages (*vide* the Government of India, Home Department, Resolution No. 731-734, dated the 1st September, 1908).

APPENDIX II

GENERAL AND SPECIAL RULES GOVERNING THE GRANT OF STATE SCHOLARSHIPS.

General Rules.

(i) Candidates must produce medical evidence of physical fitness to undergo a course of study abroad.

(ii) Except in the case of University Scholarships for which (subject to the approval of the Governments of India, Madras and Bombay) the Universities make their own selection, each Local Government is invited to nominate annually a candidate or candidates, as the case may be, and the Government of India select from among those nominated the candidates who appear to them the best fitted to hold the scholarships. For technical scholarships no candidate is to be selected by Local Governments on the result of a competitive examination either open or limited.

(iii) Full details including the name and occupation of the scholar's father and place of birth, a summary of his academic career in India and a statement of the course of study proposed to be followed in the United Kingdom should be furnished for transmission to the India Office some time before the scholar's arrival in England.

(iv) When nominating candidates already resident in the United Kingdom, Local Governments should give the earliest possible intimation to the Government of India regarding the qualifications of such candidates, the course of study they propose to pursue and their address in the United Kingdom. The Government of India will then communicate these particulars to the Secretary of State, and will await a reply from him before selecting the scholars. The Government of India will transmit to Local Governments the views or instructions received from the India Office at the earliest possible date and, if necessary by telegram.

(v) Difficulties sometimes arise owing to scholars arriving in England with preconceived plans and ideas based on the advice of educational authorities in India as to the courses of study they should follow and the institutions to which they should secure admission, or owing to a scholar's unassisted efforts on his arrival to make his own plans without a sufficient knowledge of the requirements of the educational institutions in the United Kingdom. To obviate this cause of difficulty arrangements should be made to let the India Office receive in good time any special suggestion that may be made by college professors and other educational authorities regarding the course of training which a particular scholar might follow with advantage.

(vi) Selected scholars should communicate with the local Advisory Committee (in Burma, the local branch of the Burma Society) in order that they may obtain advice regarding certificates, etc., and they should, when proceeding to England, take with them the originals of their certificates, testimonials and other important personal documents suggested to them by the local Secretary to the Advisory Committee.

(vii) State scholars are required to proceed to England within a reasonable time from the date of their selection so as to arrive there not later than the middle of September, and to reside there for the period of their scholarship unless compelled to return sooner in consequence of ill-health. The scholarship will be payable from the date on which the scholars report their arrival in England. Selected scholars will be provided with a second class passage to England and also with a second class return passage if they carry out the instructions of the Secretary of State and complete the full period of residence or are compelled by sickness to return within that period.

(viii) The scholarships carry with them no conditions as to any subsequent career or service under Government and no expectations of such employment are held out.

II—SPECIAL RULES.

(a) *University Scholarships.*

It is open to each University to consider whether a special examination should be held for the selection of the scholars, or whether the selection should be made on the results of the ordinary examinations. If special examinations are held, the regulations which the University concerned may propose to lay down in regard thereto should be submitted for the previous approval of the Government of India, the necessary arrangements for the conduct of the examinations being made under the orders of the University authorities. The candidates for the special examinations, when such examinations are held, must be young men of proved ability, and will be selected by the Vice-Chancellor on the report of the Syndicate or governing body, who will in their turn be guided by the opinions of the professors and examiners concerned.

(b) *Technical Scholarships.*

(i) *Local Governments will consider what industries are of importance in the province, and which of them may best be encouraged by scholarships, taking care to connect the scholarship scheme with the system of technical and industrial education in the province. Industries in which Indian capital and enterprise are engaged or likely to be engaged are particularly appropriate for selection.*

(ii) *In the autumn of each year Local Governments will consult local bodies, leading firms and selected individuals as to the industry which is to be encouraged, etc., and, as a result of this preliminary consultation issue a notification (with a copy of the technical scholarship rules) containing full particulars of the scholarship to be awarded, not later than December.*

(iii) *If Local Governments anticipate difficulty in arranging suitable courses in certain subjects, such as the study of fats, oils and soaps, glass making or the manufacture of sugar, a copy of the notifications is sent to the Government of India, who communicate with the Secretary of State early in January. The Government of India will reserve their final selection for scholarships till they have ascertained from the Secretary of State that suitable arrangements can be made in such subjects. In case courses cannot be arranged in any subject, it may be found convenient for Local Government to mention more than one industry in the notification, so that there may be a certain range of subjects and of candidates from which selection can be made.*

(iv) *In determining the industry to be studied and in choosing a candidate for the scholarship, Local Governments are required to bear in mind the importance of insuring that the scholar on his return will find scope for his skill and experience. In recommending a candidate for the study of any industry connected with Agriculture, Local Governments might with advantage consult the Agriculture Adviser to the Government of India as to the course of training which the selected scholar should undergo.*

(v) *The subjects excluded from the scope of these scholarships are Law, Medicine, Forestry, Veterinary Science, Agriculture, Civil Engineering and Geology. It is not intended to send scholars either to Europe or to America to study the extraction of alkalis or vegetable oil-pressing.*

(vi) *Candidates selected for scholarships should ordinarily be of such formed character and habits, and of such an age, that detailed tutelage should be unnecessary.*

(vii) *The form in which recommendations should be submitted will be found in Appendix III to this resolution.*

(viii) *If a technical scholar is receiving preliminary training in India, a report upon his work and progress should be forwarded to the Government of*

India for transmission to the Secretary of State at the end of each year, so that his training in India and England may be made parts of one considered plan, and that no time may be lost on his arrival in England.

(c) *Domiciled Community Scholarship (Male Candidates).*

(i) The two main principles which govern the grant of this scholarship are :—

(a) that, as the object in view is to assist a scholar to take up a University course in England, the scholarship will ordinarily be awarded to a young man at the close of his school career in India so that he may join the University as far as possible at the same age as boys educated in England;

(b) the scholarship will be given to the scholar who is most fitted to benefit from a course of study at a University.

(ii) In making the selection due regard will be paid to the claims of each province to participate in its turn in the scheme.

(d) *Language or Oriental Scholarships.*

(i) The Scholarship will as a rule be awarded to a candidate who has passed examinations in India which will obtain for him admission to a University in Europe as an advanced or research student.

(ii) Some elementary knowledge of French and German should, if possible, be acquired by the scholar before leaving India.

(iii) In the selection of scholars for the study of Sanskrit regard should be paid to the following considerations. As the vast range of Sanskrit literature makes it necessary for a scholar to select some special field of Sanskrit learning in which to specialise the choice of the special branch of study should be made in India and the pertinent preparatory studies completed before the scholar leaves for Europe. Professors of Sanskrit in various European Universities have complained that individual language scholars have been unable to enter at once on the course of study best fitted for them through lack of preliminary knowledge which could quite well have been acquired in India. Accordingly if a Sanskrit scholar wishes to specialise on :—

(a) Veda or Philology, he should have some knowledge of Latin and Greek ;

(b) Philosophy, he should have studied one of the systems of Indian Philosophy in the Original texts, and have read some Plato and Aristotle ;

(c) Post-Vedic Literature, his reading should have extended considerably beyond the limits of the courses prescribed for the M.A. Examination of an Indian University.

(e) *Domiciled Community Scholarship (Female Candidates) and Scholarship to Indian Women.*

If a select scholar has friends or relatives in the United Kingdom willing to receive her during vacations, their names and addresses should be forwarded to the Educational Adviser in London.

Government scholars are required to avail themselves of the information and advise which the Secretary for Indian students and the Local Adviser at University centres are in a position to give them, and to apply to their Local Adviser for instructions as regards their studies and in any circumstances of difficulty. The Local Advisers at Oxford, Cambridge, Manchester, Edinburgh and Glasgow have charge of Government scholars studying at those Universities. Scholars studying at other British Universities will be under the charge of the Educational Adviser in London. The Adviser is the proper person to bring before the Secretary for Indian students any matter requiring the sanction of the Secretary of State in Council.

2. Every scholar should on reaching England at once report himself to the Educational Adviser in London at 21, Cromwell Road, S. W. Accommodation for new arrivals is provided in that house. After seeing the Educational Adviser in London, and consulting with him in regard to his course of study, he should also call on the Secretary for Indian Students at the India Office.

3. Every scholar must obey all instructions which he may receive either through the Secretary for Indian Students or through his Local Adviser, and must consult his Local Adviser regularly in regard to his work. Any course of study which requires and has received the sanction of the Secretary of State will not be changed without similar sanction.

4. Every scholar must from time to time whenever the Local Adviser requires it, submit a certificate from the proper College or University Authority, showing that his conduct and progress in study have been satisfactory.

5. Subject to a due compliance with the above conditions, the scholar's allowance will be paid quarterly in advance by the India Office to the Local Adviser under whose charge he is. It will begin from the date of the scholar's reporting his arrival in England and the Local Adviser will disburse it to the

scholar in such instalments as convenience may dictate. Three months after the date of reporting arrival, the amount to the ensuing official Quarter Day* will be paid to the Local Adviser, and subsequent payments will be made in advance on or after each official Quarter Day. The allowance will be at the rate of 200*l* a year, except in the case of scholars admitted to the colleges at Oxford or Cambridge, whose allowances will be increased to 250*l* a year to cover the additional expenses involved.

6. Every scholar is required to lodge with the Secretary for Indian Students at the India Office, London, before his arrival in England, the sum of 25*l*. for initial expenses. He will have no claim to payment of any instalment of his scholarship until this deposit has been made.

7. Charges for University and College fees, for private tuition, for books, hotel bills, medical attendance, and travelling (except the two journeys between England and India), must be borne by the scholar and will not be defrayed by the Secretary of State.

8. The scholarship is granted for three years, unless the Secretary of State in the exercise of his discretion sees reasons to terminate it sooner. Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to comply with the Rules here set forth. It may be terminated at any time if a scholar fails in health or conduct.

9. On the expiration of the scholarship a scholar is provided by the India Office with a free second-class passage to India, and he should apply for it without delay through his Local Adviser. He is not entitled to make his own passage arrangements, and to claim an allowance in lieu from the India Office. If a scholarship be forfeited, or if it be resigned before completion of its term, or if the holder of it, on completion of its term, declines to return to India when instructed to do so, the scholar will lose his claim to a free passage back to India.

GURUPRASANNA GHOSH SCHOLARSHIP.

The terms of the bequest are given in the following extract from the Will—

"I direct that my executors shall, after payment of all my just debts and making due provision for the objects hereinbefore mentioned and [the costs they are likely to incur in the administration of my estate, sell the rests and residue of such of my estate as consists of landed properties and my jewellery and furniture and make over the proceeds thereof and all monies or securities for money of which I may die possessed to the University of Calcutta for the following purposes—namely, that the said University shall, out of the income thereof, send every year or as often as funds will permit either together or alternately pure natives of Bengal to study in Europe, America or Japan the Arts, Sciences and Industries of Europe and America on such conditions and terms as to the said University may seem proper but they must bear in mind my intention which is as follows:—*viz.*, the promotion of real learning amongst our young men so that they may become specialists in some subjects of Arts or Science, the cultivation of the knowledge of Agriculture and of the Industries of Europe and America or the East.

It is my desire that the University should further my object by awarding fellowships tenable for a certain number of years or in such other way as to the University may seem proper. In the case of boys or young men sent out to learn the industries of Europe, America or the East, or Agriculture, it is my desire that such educational tests be not laid as the condition for the obtaining of fellowships for that purpose as to make it possible for none but graduates to compete. My object is that young men possessed of energy and such preliminary knowledge as may be necessary should be sent and that the sons of artisans and mechanics following such industry in India may avail themselves of the fellowship. Preference should always be given to Hindus; if the University declines to undertake the work I direct my executors and trustees to discharge the functions themselves and make such arrangements as they think best. I give liberty to my executors and trustees to vary this direction if they think desirable in furtherance of the Tata Scheme, regard being had to the method in which I wish this direction to be carried out."

The following scheme for giving effect to the wishes of the Testator has been adopted by the Senate:—

1. Not less than three scholarships each to be called "The Guruprasanna Ghosh Scholarship" shall be maintained out of the income of the endowment. Each Scholarship shall be tenable for three years, and one appointment shall be made annually. A scholarship, if tenable in Japan, will be of the annual value of Rs. 1,000; if tenable in Europe or America of the value of Rs. 2,000.

2. Candidates for the scholarships must under the terms of the Will of the Founder, be "pure natives of Bengal" and "preference shall always be given to Hindus."

3. Applications for the scholarships shall be submitted to the Registrar not later than the 1st of August every year. If an applicant has not already passed the Intermediate Examination in Science of this University, or the final examination of a recognised school of Arts or Technical or Agricultural College he must produce with his application proof that he has attained a knowledge of English and Mathematics up to the standard of the Matriculation Examination and of Physics and Chemistry up to the standard of the Intermediate Examination in Science.

Any person who intends to be a candidate for these scholarships may be examined upon payment of a fee of Rs. 2 for each subject, in English and compulsory Mathematics in the papers set at the Matriculation Examination and in Physics and Chemistry in the papers set at the Intermediate Examination in Science; and if he attains the minimum standard laid down in the Regulations in all or any of the subjects in which he is examined, he shall be entitled to receive a certificate accordingly.

4. Candidates for the scholarships must have completed 18 years on the 1st March, in the year in which they apply.

5. The application of every candidate must set forth precisely the institution in Europe, America or Japan in which, if elected to the scholarships, he intends to study, as also the particular branch of Agriculture or the Arts, Science and Industries of Europe, America or the East, in which he desires to specialize.

6. Candidates for the scholarships shall submit to the Registrar, along with their applications :—

(a) Certificates for their good conduct from persons of respectability and position with whom they may be acquainted.

(b) Certificates of their Physical capacity to undergo the course of life and study which they will have to follow in the country to which they intend to proceed, signed or countersigned by a medical man holding a degree or diploma of a recognised British or Indian University or Licensing Body.

Candidates must also state whether they have the consent of their families to proceed to Europe, America or Japan.

7. The applications shall, in the first instance, be considered by a Committee of the Syndicate, consisting of the Vice-Chancellor and three other members, upon whose report the Syndicate shall, not later than the 1st September, in any year, award the scholarship to that one among the candidates who is best qualified to promote the object of the Founder.

8. The Syndicate may contribute towards the expenses of the passage of the selected scholar such amount as the state of the funds may permit. The Syndicate may also, whenever practicable, contribute towards the return passage of any scholar who has specially distinguished himself in his studies.

9. Every scholar shall within four weeks of his arrival at the selected place of study, forward a report to the Registrar countersigned by the proper authorities, showing (a) the course of study he proposes to follow, (b) the arrangement made for his residence, supervision and control. Any departure from the conditions to study and residence thus reported shall be duly intimated by the scholar for the approval of the Syndicate.

10. Every scholar shall, at the end of each term at the Institution where he prosecutes his studies, forward to the Registrar a certificate from the proper authorities, showing that his residence, conduct and the progress in study have been satisfactory during the term. The continuance of the scholarship shall depend upon the regular production of such certificates.

11. University Buildings.

The University had no local habitation of its own, since its foundation in 1857 till 1872. During this period the University had to transact its business in rented houses. In 1864 the site to the west of the College Street, facing the tank to the south of the Hindu School and the Sanskrit College, was selected for the University Buildings. The Public Works Department, Bengal, who was entrusted with the work of constructing the Building on the land, submitted in 1866 an estimate amounting to Rs. 2,52,221 and instructions were issued by the Government of India to take up the work in hand at once. The Buildings known as the "SENATE HOUSE" were completed by the end of the year 1872 at a cost of Rs. 4,34,697 and the University took possession of them early in 1873.

The Darbhanga Library Building has been built on the land to the west of the Senate House at a cost of over Rs. 8,00,000, of which two lakhs and a half have been contributed by the Hon'ble the Maharaja of Darbhanga and the remainder has been met out of Government grant of Rs. 2,00,000 and by a contribution of about double the amount from out of the Reserve Fund of the University. The Building accommodates the University Library, the University Law College, the University Classes in various subjects, the University Offices and also provides residential quarters for the Principal of the University Law College. The top floor which is utilised for holding the University Examinations accommodates about 700 candidates.

The building on the land, to the south of Darbhanga Library Building measuring about a bigha, and a half purchased at a cost of Rs. 1,50,000 by the University out of its Reserve Fund, has cost the University over Rs. 4,00,000 of which three lakhs have been met out of Government grant of three lakhs and the remainder out of the Reserve Fund of the University. The building has been constructed for the purpose of providing Hostel accommodation to the Hindu students of the University Law College who do not live with their parents or guardians. It has been named "University Law College Hardinge Hindu Hostel" after the name of the then Chancellor of the University, and it provides accommodation for over 150 students. The Hostel is under the direct supervision of the Principal of the University Law College, subject to general control of the Governing Body of the College, whose proceedings are laid before the Syndicate for confirmation.

The University Press is located in the shed to the immediate west of the Senate House, originally erected to accommodate the Law Classes of the University Law College temporarily, pending the completion of the Darbhanga Library Building to which the College has been permanently removed.

The fish market known as Madhab Babu's Bazar and situated to the south of the Senate House, has been acquired out of the Government grant of Rs. 8,00,000. The land measures over 3 bighas. A building which will provide Examination Halls and Lecture Rooms, is now in course of construction on the site.

XIII

Maharaja Sir Rameshwar Singh of Darbhanga University Library.

Babu Joykissen Mookerjee of Uttarpara, made a donation of Rs. 5,000 to the University on the 20th July, 1869, for the purpose of forming a Library. The amount was invested in 4 per cent. securities till the completion of the University buildings.

In 1874 the sum of Rs. 3,500 was added to the Library Fund from the surplus income of the University of that year; and the Syndicate having thus at their disposal more than Rs. 9,000, appointed a Committee to report on the steps it was advisable to take to form a Library. The Committee reported (see Minutes, Vol. XVIII, page 22) that they thought "it desirable to begin with procuring such books as shall render the Calcutta University Library *Supplementary to the other Libraries now existing in Calcutta.*" The general principles laid down by the Committee, and the mode of procedure they proposed for adoption, were approved by the Syndicate, and further transfers have, from year to year, been made to the Library Fund from the surplus income of the University. The Library now contains besides works in English Literature and works of the chief authorities on the Indian Antiquities, almost complete sets of the Sanskrit, Pali, Arabic, Persian, Latin, French and German classics and fairly good collections in Mathematics, Philosophy, Religion, History (including Biography, Geography and Travels), Philology and Anthropology. It has an up-to-date collection of books (including Reports, Blue Books, etc.) in Economics, Politics and Sociology. The Library has also acquired most valuable sets of manuscripts in Bengali and Tibetan Languages.

In 1908 the Hon'ble Sir Rameshwar Singh, K.C.I.E., Maharaja Bahadur of Darbhanga, made over to the University a sum of rupees two lakhs and a half for the construction of a building in which the Library might be located. This munificent gift was accepted by the Senate with thanks and it was decided to name the Library after the Maharaja, who was subsequently nominated an Honorary Fellow for life, as an eminent benefactor of the University.

A definite proportion of seats is reserved for Muhammadan candidates desirous of admission to Presidency College and the minimum standard has been fixed at 25% for the present, provided the candidates conform to the standard of educational fitness prescribed for the purpose.

Further privileges in the shape of reduced fees and Mohsin stipends, to the extent of 100 and 60 respectively, are enjoyed by Muhammadan students. They are granted to those eligible and are distributed in the manner indicated below :—

Class		Reduced fees		Mohsin Stipends

The tuition fee paid by those who enjoy the privilege of reduced fee is Rs. 5 per month, while those who are awarded Mohsin stipends, pay at the rate of Rs. 7 a month.

Muhammadan students pay the same Athletic and Magazine subscriptions as other students.

Hostel.—The Eden Hindu Hostel for the residence of Hindu students of the College accommodates 260 boarders. Information as to conditions of admission and terms of residence is obtainable on application to "The Superintendent, Eden Hindu Hostel."

This Hostel was originally founded by public subscriptions, the Raja of Mahishadal being the principal contributor. At first other students than Presidency College students were admissible though students of that College always formed the great majority of the boarders. Since 1905, it has been an attached hostel of the Presidency College in conformity with Chapter XXIV of the Regulations. The new wing was added at Government expense in 1895, and Government has always borne the cost of maintenance.

Tutorial Work.—There is individual tutorial work in English (generally essay-writing) in all classes and as far as practicable in other subjects.

College Examinations.—A college examination of the First and Third-year students is held each year at the end of March to determine fitness for promotion to the Second and Fourth-year classes.

Class exercise are set from time to time in all subjects in the under-graduate classes to give practice in written work and as a test of progress.

Progress during the second year of the Intermediate, B.A. and B.Sc. courses will be judged entirely from tutorial work, practical work and class exercises; and students will only be sent up for the University examinations if their progress is satisfactory.

Vacations.—The recognised vacations are: The long vacation, approximately 11 weeks between the middle of April and the beginning of July. The Durga Puja vacation, approximately 4 weeks between the Rains and the Cold weather.

Scholarships and prizes.—A number of scholarships, furnished out of the income of the Presidency College Graduate Scholarship Funds, are attached to the College. The fund originated with the subscriptions contributed in

1816 for the Hindu College. In 1863 it was amalgamated with three hitherto separate funds, which commemorated men eminent for their services to the causes of education. The scholarships are tenable by graduates of the Presidency College in Arts or Science for two years after taking the B.A. or B.Sc. Degree, and have since 1909 been divided into two groups of five and six scholarships respectively, awarded in alternate years.

FIRST GROUP					Rs. per month

3.	Gopimohan Tagore Scholarship of	30	"
4.	Hindu College Foundation Scholarship of	40	"
5.	Do. do. do.	25	"

Three free-studentships are provided out of the endowment of the late Maharaja Durgacharan Law, C.I.E. These are at the disposal of the founder's heirs subject to the condition recognised as qualifying for admission to the College.

Two Gold Medals called the Scindhia Medals and a Prize called the Gwalior Prize are awarded annually on the results of the Intermediate Examinations in Arts and Science. They were the gift of H. H. the Maharaja Scindhia in 1870.

A prize for Sanskrit called the Harischandra Kaviratna Prize is also awarded on the results of the Intermediate Examination in Arts. It was founded in 1908 by subscriptions from pupils in memory of Babu Harischandra Kaviratna, for many years Professor of Sanskrit at the Presidency College.

Two scholarships of the value of Rs. 12 a month each, tenable for two years, are awarded annually to Hindu candidates on the results of the Intermediate Examination in Science and the Bachelor of Science Examination. A prize of the approximate value of Rs. 54 is also awarded annually to the Hindu Student of the Second-year Intermediate Science class who shall produce the best laboratory notes on experimental work in Physics. They were founded in 1912 by the executors to the estate of Srimati Nistarini Dasi, deceased, widow of late Bolyechand Dutt of Calcutta.

HOOGHLI COLLEGE.

AFFILIATED, 1857.

The Institution was founded in 1836, and was originally supported from funds bequeathed by Muhammad Mohsin, a wealthy Mahomedan gentleman, who dying without heirs in the year 1806, left his large property, yielding an annual income of Rs. 45,000 to Mahomedan Trustees "for the service of God." Owing to the misappropriation of the funds Government assumed the office of Trustees. The right of assumption was opposed by the original Trustees but upheld both by the Courts in India and by the Privy Council in England. The period of litigation extended over many years, during which the annual income accumulated, forming a surplus of Rs. 8,61,100. The surplus was devoted to the foundation and endowment of the Hughli College and was further increased by a portion of the original zemindaree that became available on the death of one of the Mootawalees of the Hughli Imambarah, an Institution which also derives its support from Muhammad Mohsin's legacy. The College endowments were further increased by the accumulation of unexpended revenue until the income amounted to Rs. 51,000 per annum. In 1873, the Government of India resolved to transfer the whole of the Mohsin endowment to the purpose of Mahomedan education throughout Bengal, and accordingly increased the provincial assignment of education in Bengal by Rs. 50,000 a year, in order to meet the expenses of the Hughli College which has now become an Institution maintained by Government.

The College consists of two Departments, an English and an Arabic—and is under the control of the Director of Public Instruction, Bengal. The English Department is open to all students who have passed the University Matriculation Examination, the fees being Rs. 6 for all.

There is a Governing Body for the College of which the Commissioner of the Burdwan Division is the *ex-officio* President, and the Principal, *ex-officio* Vice-President and Secretary.

The College has for the present, arranged to teach English, Physics, Chemistry, Mathematics and Vernacular Composition for the Intermediate in Science, and for the Intermediate in Arts, English, History, Sanskrit, Persian, Logic, Mathematics, Physics, Chemistry and Vernacular Composition.

For the B. A. provision has been made for teaching English (Pass and Honours), Sanskrit (Pass and Honours), Persian, History, Mathematics (Pass and Honours), Physics, Chemistry, Vernacular Composition, Philosophy and Economics.

For the B.Sc. provision has been made for teaching Mathematics (Pass and Honours), Physics (Pass) and Chemistry (Pass).

There are two Hostels attached to the College, one for the Hindu students and the other for the Mahomedan students. There is another Mahomedan Hostel attached to the Madrasa, in which the boarding fee is Rs. 3-8 subject to enhancement according to enhanced rates of food articles.

KRISHNAGAR COLLEGE.

AFFILIATED, 1857.

This College was founded by Government in 1845, and is under the control of the Director of Public Instruction, Bengal. There is a Governing Body of which the District Judge of Nadia is the *ex-officio* President, the Principal of the College is the *ex-officio* Vice-President and Secretary, and one of the staff a member. Government added a fourth (non-official) member in 1915 and another in 1921.

Any person who has passed the University Matriculation Examination may be admitted. Students pay an admission fee of Rs. 6, a monthly tuition-fee of Rs. 6, game and Common Room fees of Rs. 2 and Magazine fee of Re. 1, annually.

The College stands upon an enclosed compound of upwards 100 bighas. It occupies three buildings one big and two small. The big one which is the Main College Building is a handsome structure standing upon three bighas of land. It was erected in 1856, at a cost of Rs. 66,876, Rs. 17,000 of which was collected by private subscriptions.

In one of the smaller buildings the Chemical Laboratory is located. Part of the ground occupied was purchased by Government; for the remainder the College is indebted to the munificence of the Maharaja of Nadia and the Maharani Swarnamayi, C.I., of Cossimbazar.

In 1871 the B.A. Classes were abolished by Sir George Campbell, the then Lieutenant-Governor of Bengal, and for some years the College only afforded instruction up to the First Examination in Arts. In 1875, however, Sir Richard Temple on the petition of the chief inhabitants of the District, consented to restore the College to its former status provided that a considerable share of the increased cost was subscribed by the community. A sum amounting to more than Rs. 40,000 was subscribed during the year and with this endowment B.A. Classes in the B. Course were opened. Classes for the A Course for the B.A. were opened in June, 1888.

The College is now affiliated in I.A. standard in English, Bengali Composition, Sanskrit, Persian, History, Logic, Mathematics, Physics, and Chemistry and in I.Sc. standard in English, Bengali Composition, Mathematics, Physics and Chemistry.

The College is further affiliated to the B.A. standard in English (Pass and Honours), Bengali Composition, Sanskrit (Pass and Honours), History, Mathematics (Pass and Honours), Persian, Political Economy and Political Philosophy, Philosophy, Physics and Chemistry, and to the B.Sc. standard in Mathematics (Pass and Honours), Physics and Chemistry.

A prize of Rs. 80 founded by Babu Mohinimohan Ray in 1883 and called the Mohinimohan Ray Prize, is awarded annually to the student who most successfully passes the B.A. Examination with Honours, or to a graduate of the College who passes the M.A. Examination in any subject.

Another prize of Rs. 8 founded by Babu Symacharan Maitra and called "The Smith and Macdonell Prize" is annually awarded to the student who most successfully passes the I.A. or I.Sc. Examination and prosecutes his studies for the B.A. or B.Sc. Examination in the Krishnagar College.

Another Prize of Rs. 8 called the "Livingstone Memorial Prize" is awarded in commemoration of the late Principal W. B. Livingstone to the student who passes in all the subjects and secures the highest marks in the Annual Examination of the 3rd-year Class.

The College Endowment Funds now amount to Rs. 75,100.

There is a Hindu Hostel attached to the College, which is under the direct control of the Principal and is managed by a Superintendent who is a member of the teaching staff and an Assistant Superintendent.

Twenty free studentships are attached to the College, of which four are Government and three are created by Babu D. N. Sinha Ray, Zamindar of Nakshipara (Nadia), and thirteen foundation free studentships.

The Krishnagar College has been created a centre for Bachelor Degree (Theoretical) Examinations since 1912.

KRISHNATH COLLEGE, BERHAMPUR (LATE BERHAMPUR COLLEGE).

AFFILIATED, 1857.

The Older Gazetteers are unanimous in recording that a "British" College was opened in Berhampur in 1826, but the College, as we know it, was opened in 1853. The foundation stone of the building, one moiety of the cost of which was paid by the community was laid in 1863, and the building came into use in 1869, when the Institution became a first grade College in

Arts. A Law Department was added in 1864. The status was, however, reduced in 1872 to that of a second grade College and the Law Department was abolished in 1875. The Institution again became a first grade College with a Law Department attached in 1888. It is open to all classes of the Community.

In pursuance of the policy recommended by the Education Commission and adopted by the Government of India, the Bengal Government decided in 1886 to transfer the Berhampur College to private management. The magnificent offer of the late Maharani Swarnamayi, C.I., of Cossimbazar, to maintain the College for five years was accepted. Accordingly by a Bengal Government Resolution, dated the 14th May, 1887, the control of the College, administrative and financial, was vested in a Board of Trustees. Since the Maharani's death in 1898, the College has been financed by her nephew and successor, the Hon'ble Maharaja Sir Munindrachandra Nandy, K.C.I.E., of Cossimbazar. In 1905, the College was handed over by a deed of transfer to the Hon'ble Maharaja Sir Manindrachandra Nandy, K.C.I.E., of Cossimbazar, with a Board of Management, consisting of the Maharaja as President, the District Judge, the District Magistrate and the Inspector of Schools, Presidency Division, as *Ex-officio* Members, and Rai Baikunthanath Sen, Bahadur, C.I.E.

For the internal management of the College there is a Committee of Management consisting of all the members of the Board, the Principal and two members of the professorial staff.

Scholarships—(1) Scholarships numbering two and three in alternate years called the Berhampur College Scholarships, of the monthly value of Rs. 8 each tenable for two years in the B.A. classes of the Institution, are awarded on the results of the Intermediate Examination, to students taking up Honours Course for the B.A. Examination. (2) The Kennedy Scholarship of Rs. 4 a month founded by public subscription in honour of J. Kennedy, Esq., formerly a Collector of this District, is awarded to the successful Intermediate candidate from the College who stands next to those obtaining Berhampur College or Government Scholarships. It is tenable for two years in the B.A. classes of the Institution. (3) Five Rajib Scholarships of Rs. 4 a month each, founded in commemoration of the donor the late Rai Rajiblochan Ray, Bahadur, the benevolent Dewan of the late Maharani Swarnamayi, are awarded to the first five successful Matriculation candidates from the Berhampur centre. They are tenable for two years of the Intermediate classes of the Institution. (4) The "Kadambini Scholarships" of Rs. 3 a month, tenable for two years in the B.A. classes was established by Srimati Ksirod-kumari Dasi of Berhampur, in honour of her late mother, Kadambini Dasi. (5) The "Harasankar Studentship" of Rs. 4 a month is awarded for one year only to a student securing highest marks in Sanskrit at the I.A. Examination from the College, and taking Sanskrit in the B.A. It was established in the year 1908 by Babu Nilmani Bhattacharyya of Berhampur, in deference to the last wishes of his father, the late Babu Harasankar Bhattacharyya. (6) Four Scholarships named "Rani Dintarini-Scholarships" founded by Raja Jogendranarain Roy of Lalgola in memory of his late wife, Ranee Dintarini, were established in the year 1908. Out of the four Scholarships, two of the value of Rs. 6 per mensem are to be enjoyed by two First-year students who pass the Matriculation Examination from the Berhampur Krishnath Collegiate School, and secure the highest number of marks without obtaining a Government Scholarship; and two of the value of Rs. 8 per mensem, are to be enjoyed by two Third-year students, who pass the Intermediate Examination from the Berhampur Krishnath College, and secure the highest number of marks without obtaining a Government Scholarship.

THE SCOTTISH CHURCHES COLLEGE, CALCUTTA.

[IN WHICH ARE INCORPORATED THE GENERAL ASSEMBLY'S INSTITUTION
AND DUFF COLLEGE.]

In 1830 the Reverend Alexander Duff founded in Calcutta an Institution for the propagation of the Gospel through education, at once liberal and religious on Western principles and with English as the medium of instruction in the higher classes. This he named the General Assembly's Institution, because it was founded under the direction of the General Assembly of the Church of Scotland whose first missionary he was. Its success was immediate and great. Again, in 1843, when Dr. Duff and his colleagues cast in their lot with that party in the Church which separated itself and formed the Free Church of Scotland, they founded another College under the name of the Free Church of Scotland Institution, on the same principles and with

similar success. To the name of this second institution the title of Duff College was added after the death of that illustrious man.

During recent years the separated branches of the Church of Scotland have been desiring and aiming at co-operation and even re-union. Thus the demand for increased efficiency in Indian education and the evident wisdom of concentrating their efforts in one Institution found them ready to take the decisive step of incorporating their separate Colleges in Calcutta in one. Accordingly, from the first day of June, 1908, the General Assembly's Institution and the Duff College ceased to maintain separate existence, and are now united as "The Scottish Churches College" working under the Scottish Churches Mission, with a Mission Council in Calcutta and a Board of Trustees in Edinburgh.

This College is affiliated under the new Regulations up to the standard of the Intermediate Examination in Arts, in English, Bengali Composition, Sanskrit, Pali, History, Logic, Mathematics, Physics and Chemistry and in the I.Sc. in English, Bengali Composition, Mathematics, Physics and Chemistry; up to the standard of the B.A. Examination, in English (Pass and Honours), Bengali Composition, Sanskrit (Pass and Honours), Pali, History, Mental and Moral Philosophy, Political Economy and Political Philosophy, Mathematics (Pass and Honours), Physics and Chemistry; and up to the standard of the B.Sc. Banerjee in Philosophy, Dr. B. C. Ghosh in Experimental Psychology and Babu Satish Chandra Bose in Pure Mathematics.

The Institution in its present form, at any rate, was the handiwork of Pandit Iswar Chandra Vidyasagara. It was the first attempt to impart high education through a purely indigenous agency and was conducted in a way that was characteristic. He gave it a costly local habitation and endowed it with a valuable Library and Laboratory. In recent years extensive improvements have been made in the Physical and Chemical Laboratories and two large lecture-theatres, provided with gas and electric fittings, have been constructed, one for the teaching of Physics, and other for the teaching of Chemistry.

It has a large Collegiate Hostel which provides accommodation for nearly 200 boarders, several "Attached Messes," Literary Club and an Athletic Club.

Six annual cricket prizes called the "Hardinge Prizes" have been instituted with the sanction of the Viceroy and Governor-General of India, two in each department of the game, in commemoration of His Excellency's visit to one of the College Messes.

Fifteen Scholarships of Rupees two per month are awarded to deserving students.

Since the death of Pandit Iswar Chandra Vidyasagara in July, 1891, the management of the College has changed hands more than once. On the 1st September, 1896, it was under an agreement with the Vidyasagara Institute, vested in a Committee called the College Council, composed mainly of the Professors of the College. This College Council was in charge of the College till the latter end of 1921, when a new Governing Body was constituted, consisting of Sir Asutosh Chaudhuri, Kt., M.A., LL.M., M.L.C.,—President, the Principal—Vice-President, *ex-officio*, the Vice-Principal—Secretary, *ex-officio*, Professor Kalikrishna Bhattacharyya, Pandit Narain Chandra Vidyaratna, son of the late Pandit Iswar Chandra Vidyasagara—Secretary of the Vidyasagar Institute, *ex-officio*, three members of the Vidyasagar Institute to be elected annually by the Institute and one representative of the teaching staff of the College to be elected annually by the Professor of the College. At present the three representatives of the Vidyasagar Institute are Babu Birendranath Mitra, M.A., B.L., Attorney-at-Law, Babu Rishindranath Sarkar, M.A., B.L., M.L.O., Vakil, High Court, Calcutta, and Babu Surendra Chandra Sen, B.L., Vakil, High Court, Calcutta; Babu Lalitchandra Mitra, M.A., is the Secretary of the Vidyasagar Institute and Professor Kshirod Chandra Gupta, M.A., B.L., is the representative of the teaching staff of the College.

The annual tuition fee is Rs. 72 for the I.A. classes except when Physics or Chemistry is taken up, when the fee is Rs. 84; that for the I.Sc. classes is Rs. 96, that for the B.A. is Rs. 84 and that for the B.Sc. is Rs. 108. The fee for admission in the case of I.A. and I.Sc. students is Rs. 6 and in the case of B.A. and B.Sc. students Rs. 7.

BURDWAN RAJ COLLEGE.

AFFILIATED, 1882.

This Institution, since its first establishment in 1817, has been one of slow but steady growth. True to its mission of supplying the demands of the public of Burdwan for education in the modern acceptance of the term, it has always kept pace with the real wants of the place. Started as an Anglo-Vernacular School imparting rudimentary education which satisfied the intellectual cravings of the Burdwan people during the early days of the British rule in India, it passed through different stages of improvement, developed various phases of usefulness and at last attained a recognised position as a Second Grade College in 1881.

The educational establishments of the Maharajadhiraj Bahadur divide themselves at the present time under five heads:—

First, the College Department which is open to all students that are matriculated in the Calcutta University, teaching up to the I.A. standard. The monthly tuition fee is Rs. 4; but there are numerous free-studentships and half-pay-studentships awarded to deserving pupils.

Second, the School Department, serving chiefly as a feeder to the above, preparing students for the Calcutta University Matriculation Examination.

Third, the Persian Department, teaching, amongst others, those boys of the first two departments, that take up Persian as their Second Language.

Fourth, the Sanskrit School imparting instruction in the orthodox native style to those whose religious scruples prevent them from availing themselves of the advantages of the School.

And fifth and last, the Girls' School, the present provision in connection with which, is more than sufficient to meet the requirements of female education as it is understood at Burdwan. All these departments are under the control of the Principal.

The disbursements in the different departments, aggregate annually about Rs. 32,200, they being entirely met by the munificent charity of the Maharajadhiraj Bahadur.

Several boys in consideration of their extreme indigence are found in money, besides provided with free tuition.

Three scholarships each of Rs. 10 per mensem, and tenable for two years are annually awarded to some of the most successful I.A. candidates from the College, to assist them in the further prosecution of their University studies.

The administration of the College in respect of all its departments is vested in a Council consisting of members, some of whom serve *ex-officio* and others were elected by the Trustees or the Teaching Staff.

The object of the Institution has been from the beginning to impart education to students of all classes of the people without distinction of creed or colour, at moderate and convenient rates of fees.

The Institution has been removed to new premises in 1911, consisting of two commodious buildings, where the College and School classes are separately located.

UTTARPARA COLLEGE.

AFFILIATED, 1887.

The College is the final outcome of the long-continued efforts of the late Babu Jaykissen Mukerji in furtherance of the cause of English education in Bengal. In 1846, he had a Government School opened at Uttarpara on the basis of an endowment by him and his brother the late Babu Rajkissen Mukerji, of Rs. 1,200 a year, and a Government assignment of equal value. The School prospered and won its way to the front rank among the Schools in Bengal.

Babu Jaykissen Mukerji's wish was that his School should ultimately expand into a College, and to this end, so long ago as the year 1853, he asked

Government to raise the School to a first class College, offering to contribute an equal sum with Government towards the maintenance of the College. In 1883, he submitted a proposal for the conversion of the School into a Second Grade College, offering to make an endowment for its support so that it might cost the Government nothing. The recently initiated educational policy of Government stood, however, in the way of his proposal being accepted, and it was accordingly not accepted.

He finally went up to Government in April, 1887, with a proposal for the establishment of an aided College in connection with the old Government School. Government accorded him permission to open such a College, but on the condition that he took the School off the hands of Government. He agreed to do so, provided Government left the school the material advantage it derived from its connection with the Government. It took sometime to settle the terms of the transfer, which was formally effected in March, 1889. The College and the Collegiate School were then under the management of a Board consisting of the Collector of Hughly as President, of Raja Pearymohan Mukherji, C.S.I., and of Babu Rashbihari Mukherji as representative of the late Babu Jaykissen Mukerji and of Babu Monahar Mukerji, as representative of the late Babu Rajkissen Mukerji. But the Uttarpara School having been resumed by Government on 1st April, 1897, the College is now maintained by its proprietor, Raja Pearymohan Mukherji, C.S.I., M.A., B.L.

BANGABASI COLLEGE.

AFFILIATED, 1887.

This Institution was founded under the name of Bangabasi School in May 1886. The success of the School in the first year of its existence led the proprietor to add to it a College Department, which was affiliated to the F.A. standard in June, 1887, and to the B.A. and B.L. standards in March, 1896. The College also prepared students and sent them up for the M.A. Examination for which separate affiliation was not required under Act II of 1857. Under the Universities Act of 1904, affiliation in the Intermediate standard in Arts was restricted to the subjects of English, Bengali, Sanskrit, Mathematics, History, Logic, Physics, Chemistry and Botany; and in Science to the subjects of English, Bengali, Mathematics, Physics, Chemistry and Botany; in the B.A. standard restricted to the subjects of English (Pass and Honours), Bengali, Sanskrit (Pass and Honours), History (Pass), Mathematics (Pass and Honours) and Political Economy and Political Philosophy (Pass), Physics, Chemistry and Botany; and in the B.Sc. standard to the subjects of Physics (Pass), Chemistry (Pass), Botany (Pass) and Mathematics (Pass and Honours).

The Arts Department of the College has, in addition to lecture works, provision for regular tutorial help and exercise work in all the four classes conducted by the Professors in charge of the respective subjects with the

help of tutors, and supervised and scrutinized by Babu Lalitkumar Banerjee, the Senior Professor of English. The Science Department consists of two lecture-galleries fitted up with the modern requirements of Science-teaching, a Physics Laboratory, a Chemistry Laboratory and a Botanical Laboratory, for the Intermediate students; four Physics Laboratories, two Chemistry Laboratories, two balance rooms, one furnace room and two Botanical Laboratories for the B.A. and B.Sc. students. Gas, water and electric connections have been so laid out that the students working in the Laboratories may have plentiful supply of these necessary adjuncts of practical work. The Laboratory rooms are lighted up with powerful electric lamps so that practical work when necessary is continued right into the early part of the night. The Laboratory work is conducted by the Professors and Demonstrators and scrutinized by the Principal.

Practical Laboratory work in the Science subjects is recorded in manuscript books of prescribed size with a printed College label attached to each. These manuscript books are carefully scrutinized, corrected and initialled by the Professors, Tutors and Demonstrators in charge. Periodical exercises are given in rotation in all subjects once a month, and the answer-books returned regularly after being corrected and the marks or remarks entered in a record-book kept for the purpose. Promotions and selections for the University Examinations are regulated mainly on the basis of the records of marks or remarks.

In view of the comforts of students, the lecture halls and galleries are provided with powerful electric fans which have completely replaced the old roller punkhas, and sanitary arrangements have been brought up to date.

There is a printed catalogue of books contained in the Library and each student is supplied with a copy of it at a nominal price. Besides the books prescribed and recommended by the University, the Library possesses many other useful books of reference. To keep the Science students posted in facts of the latest developments of the subjects of their study, the Chemical Society's Journal, the Philosophical Magazine and Nature are subscribed. In the spacious Library, tables and seats have been arranged for the boys to consult books, Journals, and other periodicals during intervals of rest. Excepting the prescribed text-books and books of reference, all other books are lent out to students, one volume at a time to be returned after a week.

There are several College Messes close to the College.

The College has been publishing since January, 1903, a Magazine styled the *Bangabasi College Magazine*, which is issued once a month excepting during the vacation months. Educational matters and news mainly connected with the University, form the contents of the news column of the Magazine. Political and controversial matters are on principle eschewed as unwholesome and beyond the range of our undergraduates. The Magazine further affords an exercise-ground for the students to try their powers of composition in English, Bengali and Sanskrit; above all it tends to promote an *esprit de corps* to which we attach great importance and which is one of the most potent factors in creating and upholding a genuine *College life and College atmosphere*. In pursuance of this object a *Sporting Club* has been organised under whose auspices the College often enters for the Elliot Shield and other prizes open to College sporting clubs. It thus enables the boys to spend their afternoons in manly open air games wherein is developed that spirit of co-operation and healthy rivalry which is essential to the growth of a sturdy manhood. Further there are two Associations, viz.,—an *Economic Association* and *College Association* mainly conducted by the First and Third year students, the Second and Fourth-year boys joining only occasionally.

The administrative control of the Institution is entirely in the hands of a Governing body consisting of eleven Members with Raja Pearymohan Mukerjee, C.S.I., M.A., B.L., as President, and the Principal as Secretary. The financial control is also vested in the Governing Body subject, however, to the approval of the Trustees of the College consisting of Lord Sinha,

P.C., K.C., Mr. G. C. Bose, Principal, and three other members.

Free Studentships.—Government Junior and Senior scholars receive tuition free.

College Scholarships.—There are two Graduate Scholarships of Rs. 8 each.

BROJOMOHAN COLLEGE, BARISAL.

AFFILIATED, 1889.

This Institution was founded as a High Class English School on the 27th June, 1884, by late Babu Brojomohan Dutt, Small Cause Court Judge of Nadiya, at the request of the District Education Committee which had been instructed by the Director of Public Instruction to secure the establishment of a private school, as the number of students in the Barisal Zila School had at that time exceeded 600 and the buildings were found too small for the accommodation of so many boys. Babu Brojomohan Dutt expressed a wish to raise the institution to the status of a second grade College, but it could not be fulfilled on account of his sudden death. His sons Babu Aswinikumar Dutt and the late Babus Kaminikumar Dutt and Jaminikumar Dutt encouraged by the unexpected success of the Institution and with a view to carry out the wishes of their deceased father added the college classes up to the F. A. standard of the Calcutta University since June, 1889, and to the B.A. standard since July, 1898.

Babu Aswinikumar Dutt worked as an Honorary Professor from the foundation of the college up to 1906, giving up an extensive practice at the Bar.

In March, 1912, the Proprietors by a trust deed made over their rights and the management of the college to a council on which the Government, the Proprietors and local interests have been represented, the Rev. E. L. Strong, M.A. (Oxon.), being the first President of the Council; and the Government by an Indenture generously agreed to pay to the Institution three quarters of a lakh of rupees for the construction of a college building and a monthly grant of Rs. 1,200 for the maintenance of the college and to acquire and make over a plot of land for the purposes of the college. It was agreed that the School Department should continue as before.

A new site about a mile from the town and measuring about 56 bighas has been acquired and raised to the proper level and a new two-storied building with 10 spacious rooms together with a suitable common-room, out-houses, latrines, roads and temporary Kutcha hostels capable of accommodating 220 students and four Superintendents, as well as a separate house for the Optional Classes and a new one-storied Chemistry building have been constructed, at a cost of about Rs. 1,50,000. The Government having paid a lakh of rupees in all for the site and buildings the deficit of Rs. 50,000 has been met from other sources.

The Chemical Laboratory has been fitted up with a new gas plant at a cost of about Rs. 11,000 and a further sum of about Rs. 10,000 has been spent for the improvement of the Hostels and construction of concrete drains for which the Council received a grant of Rs. 20,000 from the University during the last two years.

Mr. P. H. Wadell, I.C.S., District Magistrate of Barisal, is the President of the College Council which has been reconstituted for the second term with effect from the 27th March, 1917.

The object of the college has always been to impart to its students moral and unsectarian religious training together with intellectual and physical education.

Fees:—The tuition fee is Rs. 4 per mensem with the additional contribution of Rs. 2 per annum. Chemistry students have to pay one rupee per mensem in addition.

Special features:—Among the special features of the college might be mentioned:—(1) The Teachers' and Students' Friendly Union which presents to students by means of hymns, readings, sermons and discourses on the lives of great men, unsectarian cardinal principles of religion and morality.

(2) "The Little Brothers of the Poor" consisting of a band of college and school students tends the helpless sick without distinction of caste or creed and helps the poor. The college has distinguished itself in athletics carrying off the James Roy Football Challenge Shield in 1915 and again in 1917 and 1919.

Scholarship:—A Scholarship of Rs. 10 a month called the "Bell Scholarship" after the Hon'ble Mr. N. D. Beatson-Bell, B.A., C.I.E., C.S.I., I.C.S., tenable for two years in the B.A. Classes of this College, is awarded to the student who passes the I.A. Examination in the First Division and stands just below the students who secure Government Scholarships from this college.

Subjects taught in the I.A. Classes:—English, Bengali, Mathematics, Sanskrit, Arabic, Persian, Logic, History and Chemistry.

B.A. Classes:—English (Pass and Honours), Mathematics, Bengali, Persian, Arabic, Sanskrit, Philosophy (Pass and Honours) and History.

MURARICHAND COLLEGE, SYLHET.

AFFILIATED, 1891.

This Institution was founded as a Higher Grade English School in 1886 by the late Raja Girischandra Ray, Zemindar of Sylhet, who after long continued efforts in furtherance of the cause of higher education, raised it to the status of a Second Grade College in 1891. It is named Murarichand College after the name of the proprietor's grandfather, the late Babu Murarichand Ray.

The College has been provincialised from the 1st of April, 1912; but the name of the College has been retained as Murarichand College, Sylhet, in accordance with one of the conditions under which the late proprietor agreed to the transfer of the College to Government management.

When the new Regulations came into force in 1906, affiliation was restricted to the Intermediate in Arts in the following subjects, namely, English, Vernacular Composition, Mathematics, Logic, Chemistry, Sanskrit, Arabic and Persian. In the year following the provincialisation of the College affiliation was extended in the following courses and subjects namely, History and Physics in the Intermediate in Arts, and English, Vernacular Composition, Mathematics, Physics and Chemistry in the Intermediate in Science.

The affiliation of the College was further extended to the B.A. Pass standard in 1916 in the following subjects, namely, English, Vernacular Composition, Mathematics, Sanskrit, Persian, Arabic, History and Philosophy, and it was further extended to the B.A. Honours standard in English, Mathematics, History, Philosophy, Persian, Arabic and Sanskrit.

The fees in the college classes are as follows :—

Intermediate Classes	Rs. 4 per mensem
B.A. Classes	Rs. 5 „ „

There are three Hostels attached to the College, two for Hindu pupils to accommodate 116 and the other for Mahomedan pupils to accommodate 38. The Hostels are under competent supervision.

Land to the extent of 26 acres was acquired for the permanent establishment of the college, situated in the heart of the town of Sylhet. This has, however, been abandoned in favour of a better site outside the town, containing about 112 acres of land, the acquisition of which has been completed.

The foundation stone of the college was laid by His Excellency the Governor of Assam on 19th August, 1921. The construction of the buildings has been taken in hand. It is expected that the Arts block with quarters and Hostels, which has been estimated to cost over 8½ lakhs, will be completed by the end of the next financial year.

CENTRAL COLLEGE, CALCUTTA.

AFFILIATED, 1896.

This Institution was founded as a higher class English School under the name of the "University Institution," on the 2nd June, 1893. The name, however, was shortly changed and the Institution was recognised by the University of Calcutta under the name of the "Central Institution" which was altered again, in 1896, into the one it at present bears. The unexpected success of the School within a short period of its starting and the connection of a number of experienced educationists with its teaching staff, led to its being raised to the status of a Second Grade College in June, 1894.

The results for 1895, both in the Entrance and F.A. Examinations having still further improved the prospects of the Institution, an application was made for its affiliation up to the B.A. standard of the University, and it attained to the status of a First Grade College in January, 1896. It completed the full period of five years for which it was stipulated to be maintained in June, 1901 and retained its rank and position as a First Grade College for full 14 years, that is up to May, 1910, when, under the operation of the new Regulations, its affiliation came to be restricted to Intermediate Arts standard of the University.

The institution is not, and has never been, supported by any donations, subscriptions or other aids, and its proprietary rights and responsibilities have absolutely been in the hands of its founder, Babu Khudiram Bose. Recently however, a change in its present constitution has been proposed.

Since the enforcement of the new Regulations of the University the management of the College and the Collegiate School has been vested in a regularly constituted Governing Body and on the demise and resignation of some of its old members during the previous years it has been reconstituted in the following way :—Dr. Dwarkanath Mitter, M.A., D.L. (*President*), A. K. Ghosh, Esq., B.A. (Cantab.), Bar-at-Law (*Vice-President*), C. H. Linton, Esq., M.A., and R. L. Dutt, Esq., D.Sc. (*Members*) and the Principal of the College (*Member and Secretary*).

The object of the Institution, as remodelled after the promulgation of the new Regulations of the University, is to provide an un-aided College after the model of the great educationist, Pandit Vidyasagar, in the northern part of the city for students of moderate means and resources, combining physical and moral training with the type of intellectual training, principally of the Arts side, adapted to the present day requirements of the University. Attention is paid to proper enforcement of discipline by precept and example; and examinations and exercises are held frequently. B.A. classes had been at work since June, 1896 and several among the many graduates from this Institution had graduated with Honours in the course of these years. The percentage of F.A. success for 1907 was exactly 50; and that of B.A. (*A Course*) close upon that figure—an indubitable evidence of the success and efficiency of the College work for the year, markedly in connection with the

B.A. test—bating, as it did not only its own past records but also, those of all its sister institutions in this city for the year. [*Calcutta University Minutes*, 1907.] In 1919, again the number of I.A. successes was 210 (with 52, in the 1st Div.); and even during recent years of Non-co-operation, thinning away the college forms more or less, the number of I.A. successes has exceeded or approximated 100.

The ordinary rate of the monthly tuition-fee in the College Department is Rs. 6. The fee for admission is equal to a month's tuition-fee.

Two scholarships named "*King-Emperor and Queen-Empress Coronation Memorial Scholarships*" of the annual value of Rs. 72 to be awarded to two such students of the Institution as would pass with distinction the Matriculation test of the University from this Collegiate School, have been recently provided for, in addition to a lot of School Annual (*Victoria Memorial*) Scholarships determined by the results of the school annual examinations. Two other Scholarships—*Vidyasagar Memorial* and *Breswar Mitter Memorial* are also awarded; one, to the student who stands first in the test examination in all the subjects taken together, and the other, in Mathematics only, of the Matriculation Class of the School. Another Scholarship to be styled—"*Col. Sarbadhicary Memorial*" of the annual value of Rs. 72, has recently been instituted, and is to be awarded to a successful First Class Matriculate from this Collegiate School, scoring the highest number of marks in Languages and Mathematics (taken together) at the School Test Examination and proposing to prosecute his studies in this college. Two gold medals, named "*Durgacharan Sarkar Medal*," and "*Gaganchandra Basu Medal*," are to be awarded by the Founder or Principal of the Institution—the one, in memory of one of his youngest brother and pupil and the other, in memory of one of his distinguished pupils, both in Pandit Vidyasagar's Metropolitan Institution—to two such students of this college as would secure a Duff Scholarship and the highest number of marks in Logic, respectively, at the Intermediate Examination in Arts of the University for any year. The Logic Gold Medal (*Gaganchandra Bose*) has been awarded in a very recent year.

The management of the College is in the hands of a committee.

This College has been affiliated up to the Intermediate Examination in Arts under the new Regulations in the following subjects:—English, Bengali, Logic, History, Sanskrit, Mathematics and Physics. Of the optional subjects taught all combinations are allowed.

The tuition fee is Rs. 4 per month. Five free studentships are granted according to the rules of the College to deserving students in each class. All Government Scholars are admitted free. COTTON COLLEGE, GAUHATI.

AFFILIATED, 1901.

The College was established in 1901 as a purely Government Institution during the administration of Sir Henry Cotton, after whom it has been named and is under the control of the Director of Public Instruction, Assam.

Originally started as a second grade institution teaching up to the F.A. standard it was housed in a building erected by Government at a cost of over half a lakh of rupees. The short history of the college is one of steady growth since the establishment, due chiefly to the keen interest taken by Sir Lancelot Hare and Sir Archdale Earle, in extending its sphere of usefulness. In 1909, when Assam formed part of Eastern Bengal, B.A. and B.Sc. Classes were first opened and a new Science block was added to the main building. Since 1912, when Assam was reconstituted into a separate administration, the College has undergone further expansion. Honours classes in different branches of studies were opened in 1914 and numerous additions have been made to meet increasing demands, a new block having been added for the exclusive accommodation of the Arts Section. The College has a large Science Theatre with well-equipped Chemical and Physical Laboratories, a good Library and a common room for students provided with leading periodicals and newspapers. At a distance of half a mile from the College there is a spacious play-ground entirely belonging to the College and the Collegiate School.

COURSES OF STUDY.

The College is affiliated to the University up to the M.A. standard in English (Group A), to the B.A. and B.Sc. Honours stage in English, Economics, Mathematics, Philosophy, History, Sanskrit, Physics and Chemistry, and to the B.A. Pass standard in Arabic and Persian. In Intermediate in Arts and Science it is affiliated in English, Mathematics, History, Sanskrit, Persian, Arabic, Logic, Physics, Chemistry and Vernacular Composition.

Connected with the College under the control of the Principal, there are two separate Hostels for the Hindus and the Mahomedans under the supervision and management of four Resident Superintendents. The College Hostels have now accommodation for 276 boarders. The cost of living in the Hostels ranges from Rs. 10 to 11 according to market fluctuations. A visiting Medical College Officer is in charge of the Hostels and looks after the health of the boarders.

The fees levied in the College are Rs. 5 monthly tuition fee and Rs. 5 admission fee. There is a limited number of free studentships which are awarded to deserving students. Junior Scholarships are awarded to the residents of the Assam Valley, upon the results of the Matriculation Examination. Senior Scholarships of the value of Rs. 25, 20, 15 and 10 are also awarded on the results of the Intermediate Examinations.

WESLEYAN COLLEGE, BANKURA.

AFFILIATED, 1907.

This College was established by the Wesleyan Methodist Mission in June, 1903, partly because of the success of the Mission High School, now known as the Collegiate School, but chiefly because of the great demand for higher education in this part of Bengal. There is no College within 60 miles, and the climate is dry and healthy. The foundation of the College has been amply justified by the number of students who have entered it and the degree of success obtained. The College is affiliated in English (Pass and Honours), Sanskrit (Pass and Honours), Philosophy, Economics and Mathematics up to the B.A. standard, and in the usual subjects (including Chemistry and Physics) for I.A. and I Sc.

The College which is a handsome and convenient structure, stands in a compound of 115 bighas. Gas and electricity are manufactured on the premises. The College has an up-to-date workshop and an Astronomical observatory. The first College Hostel, a fine two storied building, holds 88 students and the second, the Ronaldshay Hostel, contains 64 single rooms. There is at present room for 60 students in attached Messes outside the compound.

The aim of the College is to give a sound healthy education based on high moral and Christian principles. The closest possible intercourse between Professors and students is attained. Cramming is discouraged. Scripture is taught systematically. The playing fields are very extensive. Cricket, foot-ball, hockey, tennis and badminton are popular.

ANANDAMOHAN COLLEGE, MYMENSINGH.

AFFILIATED, 1908.

The City College, Mymensingh Branch, established in July, was being maintained by the Council of the City College Institution, Calcutta. They directed it to be closed from the end of May, 1908, and applied to the University for its disaffiliation. Hearing this state of things some representative gentlemen of Mymensingh formed themselves in May, 1908, into a Provisional College Committee for the purpose of carrying on the College under the Provisional title of "The Mymensingh College," so as to meet the requirements of the District of Mymensingh for higher education. Accordingly an application for the re-affiliation of the College under the aforesaid title was submitted by the Provisional College Committee to the University by the middle of June, 1908. The Syndicate considered this application for re-affiliation on the 23rd June, 1908 and their recommendation was subsequently confirmed by the Senate. The Registrar submitted the application and

The Registrar informed the Principal, that the new College should, in all future official correspondence, be properly designated by its correct name "The Mymensingh College," since the Government of India have accorded their sanction to the application for affiliation of the Mymensingh College under the name of "The Anandamohan College, Mymensingh."

SERAMPORE COLLEGE.

AFFILIATED, 1910.

Serampore College was founded in 1818, under the patronage of the Marquis of Hastings, then Governor-General of India, by the Revs. Dr. Carey, Dr. Marshman and William Ward, who together with Colonel Krefting, the Danish Governor of Serampore and J. C. Marshman, Esq., formed the first College Council.

The object of the College was the instruction of Indian youths, both Christian and non-Christian in Literature and Science, and the training of selected Indian and Anglo-Indian young men for the work of the Christian Ministry.

In 1821 the College received a donation from King Frederick VI of Denmark of certain premises to the north-west of the College building and this act of liberality was followed in 1827 by the grant of a Royal Charter, giving perpetuity to the Institution and its endowments and empowering it to grant Degrees. At the cession of Serampore to the East India Company in 1845, this charter was confirmed at the special request of the Danish Sovereign and a special clause was inserted in the treaty providing that "the rights and immunities granted to Serampore College, shall not be interfered with, but continue in force in the same manner as if they had been obtained by a charter from the British Government."

The ground on which the College stands was purchased chiefly by subscription; the entire expense of the original buildings, amounting to about £15,000, was met out of the private funds of the Serampore Missionaries, who were the first promoters of the undertaking. The Institution was crippled at the outset by the loss of the greater part of its invested funds through a series of bank failures only a few years after the granting of the charter. It was enabled to continue its work through the liberality of J. C. Marshman, Esq., but not on the scale originally contemplated. The right of conferring degrees was therefore not exercised.

On Mr. Marshman's departure from India in 1856, the College, though still legally under the control of its own Council, was placed under the general direction of the Baptist Missionary Society, which contributed the greater amount of the funds needed for its support. In the following year, 1857, Serampore was one of the first eight Colleges to be affiliated to the newly formed Calcutta University. This connection continued till 1882, when it was decided to close the Arts Department converting the College into a purely Theological Institution.

Twenty years later, the decision of the Universities Commission that it was neither practical nor expedient to make provision for a Faculty of Theology in connection with any of the existing State Universities, led the Decennial Missionary Conference, representing all Protestant Missions in India, to ask the Serampore College Council whether it would not be possible to make the Serampore Charter available for the granting of degrees in divinity. The Council advised by Dr. Howells, the present Principal, resolved to accede to this request and also to re-organise the College on the lines planned by its founders, making it capable of imparting instruction in Theology of a standard equal to that obtainable in Europe and America. With a view to providing a preliminary training in Arts for students intending to proceed to the B.D. degree and for the benefit of the Christian community and of Hindu and Musulman youths generally it was also resolved to re-open the Arts classes.

Through the generosity of the Arthington trustees the Council has been enabled to renovate the College and to build a new Hostel, including extra quarters for the professorial staff, at a cost of about two and half laks of

rupees. They have also made considerable progress towards the raising of a new endowment fund.

The College is affiliated up to the Bachelor of Arts in English (Pass and Honours), Bengali, Philosophy (Pass and Honours), Sanskrit (Pass and Honours), Hebrew (Pass), Syriac (Pass), History (Pass), Political Economy and Political Philosophy (Pass). In the Intermediate Arts, or Science the College is affiliated in English, Bengali, History, Logic, Sanskrit, Hebrew, Syriac, Mathematics, Chemistry, Physics.

Tuition fees—Rs. 5 for Intermediate Arts (with an additional Rs. 2 for a science subject), Rs. 7-8 for Intermediate science and Rs. 7 for B.A. Classes. A few scholarships are granted to poor and deserving students. An annual charge of Rs. 4 is payable to the Union Society, this including the subscription to the Athletic Clubs.

Attached to the College is a well-equipped Hostel. The Hostel establishment fee is from Rs. 4-8 to Rs. 7 according to the character of the accommodation. The charge covers seat rent, use of furniture, and cost of servants, light and medical attendance. Almost all the rooms are single-seated, but there are a few double rooms, for which the fee is Rs. 4 (ground floor) or Rs. 6 (first floor).

There is an additional Hostel healthily situated on the riverside under the direct supervision of the College. The establishment fee in this Hostel is Rs. 4-8 (ground floor) or Rs. 5-8 (first floor). There are no single-seated rooms in this Hostel.

The admission fee for the Hostels is Rs. 3.

The normal cost of food in the Hostels is Rs. 10-8 apart from tiffin.

The ordinary fee payable on entrance (*viz.* the admission charges, Union subscription and one month's fees) must be remitted with every formal application.

There is a large and valuable Library and considerable additions are being made to bring it up-to-date.

The Union Society provides opportunities for the discussion of topics of general interest and serves to promote a corporate feeling among the students of the College.

The College is under the control of a Council, of which the members who hold office for life, are appointed in accordance with the Charter and Statutes. This Council which sits in London, is at present composed of the following members:—

Sir Alfred Pearce Gould, M.S., K.C.V.O., Master of the College.

Dr. George Howells, Principal of the College.

Rev. R. F. Horton, M.A., D.D.

SOUTH SUBURBAN COLLEGE, BHOWANIPUR.

AFFILIATED, 1916.

This College was started in 1916 at the instance of the authorities of the South Suburban School, a flourishing institution of Bhowanipur, which had been founded in 1874 by the local public with the object of promoting the growth and spread of higher education in the south suburban areas of Calcutta. The immediate occasion which led to the development of the school into a college was the abolition of the University Departments, both on the Arts and Science sides, by the two existing Colleges in and near Bhowanipur, namely, the L.M.S. Institution and the Bishop's College. That there was room for a first grade college here was abundantly clear from the very beginning, but partly from financial and partly from other considerations, the authorities of the South Suburban School were anxious to move cautiously, and they, therefore, applied in the first instance for affiliation up to the Intermediate standard only. They had great difficulty, however, in persuading the Government of India that second grade colleges did fulfil a definite function in the educational machinery of the country, and that it was a mistake to suppose that the view of the Indian Universities Commission of 1904 condemning the affiliation of such colleges had been endorsed in its entirety by the Government of India at the time. The result of the protracted correspondence on the subject was to delay the affiliation of the college which was obtained with effect from the commencement of the session 1916-17, although application for it had been made early in 1915. Affiliation was granted up to the Intermediate standard in Arts and Science in the following subjects, as asked for:—English, Vernacular Composition, Sanskrit, Logic, History, Mathematics and Botany. The College was started in a fine two-storied building at 26, Lansdowne Road in one of the best quarters of Bhowanipur with over 250 students on the rolls, but the very next year it became necessary to remove it to more spacious and more conveniently situated premises at No. 147, Russa Road South, where it is at present located and where there was accommodation for nearly 700 students. In October, 1917, the College authorities applied for extension of the affiliation up to the B.A. Pass standard in a few selected subjects, namely, in English, Vernacular Composition, Sanskrit, Mental and Moral Philosophy, History, Political Economy and Political Philosophy, and Mathematics, and this was granted with effect from the commencement of the session 1918-19. During session 1919-20 accommodation was enlarged to suit the requirements of about 825 students. During session 1920-21 the authorities applied for extension of affiliation up to B.A. Honours standard in English and Philosophy and in Geography up to the Intermediate standard. The application having been sanctioned the classes have been opened during present session.

Both the School and the College are under a General Committee, composed of 50 representatives of the local public, who constitute the ultimate controlling authority over the whole Institution in financial matters. The actual management of the College is vested in a Governing Body which is quite distinct from the Managing Committee of the school, and consists of 11 members who are annually elected by the General Committee except that the Principal and another representative of the teaching staff are members *ex-officio*.

A special feature of the College is that in no section is the number of students allowed to exceed 75: in several subjects the number is in fact much smaller, the object aimed at being to ensure individual attention to every student as far as practicable. Copious provision is also made for tutorial work in every subject in small batches, as well as for frequent exercises and examinations. The College Council, consisting of all the Professors on the staff, has recently introduced a system under which each Professor is placed in

charge of, and made responsible for, a specified number of students, who are required to look up to him on all matters, both in and outside the College, for help, guidance and advice.

There is a Debating Club and an Athletic Club, each under the personal supervision of one or more Professors, which are very popular among the students.

A large percentage of the students reading in the College live in the locality with their fathers or natural guardians. For those that do not do so, provision is made in Attached Messes or Hostels under the supervision of members of the staff. The seat rents are charged according to the scale fixed by the University under the Calcutta Messing Scheme. The College has a Special Officer for inspecting the residences of students.

The College fees are as follows :—

Admission fees Rupees six : Tuition fee Rupees six per month ; Laboratory fee (for Botany students only) Re. 1 per month. Punkha fee Rupees two and Athletic fee Rupee one for the session. Liberal provision is made for free and half-free studentships for deserving candidates. A fair number of College scholarships of Rs. 6 a month are also awarded every year on the results of a College Test.

The College possesses a fairly good Library (worth over 15,000 Rupees) of which free use is made by the students. Constant additions are being made to the stock of books.

CARMICHAEL COLLEGE, RANGPUR.

AFFILIATED, 1917.

The College was started in July, 1917, and is the result of the earnest efforts of the residents of this district to remove a long-felt want. A scheme for the establishment of a college had originated as early as 1913, but it was not till 1914 that active steps were taken to carry it out. A Committee of the local representative gentlemen met under the Presidency of Mr. J. N. Gupta, M.A., I.C.S., the then District Magistrate, and the scheme took definite shape. By March, 1917, donations to the extent of about 7½ lacs had been raised. An application to the University was then made for affiliation of the proposed college up to the B.A. standard, which was subsequently obtained.

The College occupied the new building in July, 1918. It is situated on a plot of ground measuring over 900 bighas of land, on the outskirts of the town and away from all contaminating influences. There are three boarding houses for Hindu and two for Mahomedan students accommodating 300 boarders, and the Principal and staff of the college have been provided with quarters in the college compound, the idea being to develop it eventually into an entirely residential institution.

The College buildings are among the finest in Bengal. From the funds subscribed over two lacs have been invested in War Loan. Among the principal single donors may be mentioned the names of Raja Bahadur Gopal Lal Ray of Tajhat (Rs. 1,00,000), Rai Annadamohan Raychaudhuri, Bahadur, of Tapa (Rs. 1,00,000), and the Hon'ble Maharaja Sir Manindrachandra Nandi, Bahadur, K.C.I.E. (Rs. 50,000).

In February, 1918, His Excellency the Earl of Ronaldshay, Governor of Bengal, declared the new buildings open, spoke of the College scheme with the warmest approval, and announced a Government grant of 50,000 rupees towards land acquisition and capital expenditure on buildings to which another 40,000 rupees was afterwards added.

The College is under the management of a Governing Body with the District Magistrate as President. Mr. J. N. Gupta, the late Collector—to whose strenuous efforts the college owes its existence—as well as Raja Bahadur Gopal Lal Ray of Tajhat and Rai Annadamohan Raychaudhuri Bahadur of Tapa, in consideration of their generous contributions, are life members of the Governing Body.

The College is affiliated to the University up to the B.A. Pass standard in English (Pass & Honours), Vernacular Composition (Bengali and Urdu), Sanskrit (Pass and Honours), Arabic, Persian, Mathematics (Pass & Honours), History, Political Economy and Political Philosophy, and Mental and Moral Philosophy (Pass & Honours.) In Intermediate Arts it is affiliated in English, Vernacular Composition (Bengali and Urdu), Sanskrit, Arabic, Persian, Mathematics, History and Logic.

The tuition fee is Rs. 5-8 per mensem; the seat rent charged from the hostel students is Rs. 3 for the upper storey and Rs. 2 for the lower storey.

RAJENDRA COLLEGE, FARIDPUR.

AFFILIATED, 1918.

The College was established in July, 1918, and has been named after the late Babu Rajendrachandra Raychaudhuri, the Zemindar of Baishraahi, whose public-spirited and enlightened son and heir, Babu Rameschandra Raychaudhuri by his munificent donation of Rs. 50,000 has made the institution an accomplished fact. Rs. 30,000 more have been raised by subscription and donation. Among the chief minor donors the following names may be mentioned :

	Rs.
The Hon'ble Maharaja Sir Manindrachandra Nandi, Bahadur	... 2,000
Babu Prafullanath Tagore	... 2,500
The Hon'ble Kumar Arunchandra Sinha	... 2,000
Babu Prafullanath Tagore has contributed to the Library about 700 books.	

The total area of the College ground is 555 acres or 17 bighas approximately, which have been conveyed by the Government in permanent lease at a nominal rent of Re. 1 per annum for which the Faridpur public is particularly grateful to His Excellency Lord Ronaldshay and the Rt. Hon'ble Lord Sinha as also to Mr. J. G. Dunlop, I.C.S., the then Collector of the District who was kind enough to move in the matter. About three bighas of this land are now occupied by the Hostel buildings. The College building has accommodation for a maximum number of 500 students. Close by, there is another commodious building which has been purchased by the College authorities and which is intended to be used as a meeting-hall, an examination-hall or a laboratory, as the case may be. A plot of land has been set apart for games and sports.

The site of the College is an ideal one. It is at one end of the town, far from din and tumult, open in all directions, accessible by streets and it faces an enormous lake which fades away in the distant horizon.

The College is under the management of a Governing Body presided over by the Hon'ble Babu Ambikacharan Mazumdar, M.A., B.L., the Grand Old Man of East Bengal, one of the foremost leaders of the country, to whose indefatigable endeavour and strenuous exertions the College mainly owes its existence and whose connection with it is a guarantee for its steady expansion and progress.

The College has a Literary Club or a Debating Society and also a Mutual Aid Society—institutions which bring the students and professors together, foster a healthy corporate life and afford opportunities for co-operation and fellow-feeling the educative value of which it is impossible to exaggerate. The College has also an Athletic Club.

The College is affiliated to the University up to the I.A. standard in English, Vernacular Composition, Sanskrit, Mathematics, History, Logic, Persian and Arabic and to the B.A. Pass Standard in English, Vernacular

Composition, Sanskrit, Mathematics, History, Philosophy, Persian and Arabic.

The tuition fee is Rs. 4 per mensem for the I.A. Classes and Rs. 5 per mensem for the B.A. Classes. There is provision for 3 half-free-studentships and two scholarships of the value of Rs. 6 a month.

The sum of Rs. 800 has been deposited by Babu Surendrakumar Dasgupta, B.L., Pleader of Faridpur and another sum of Rs. 800 by Babu Mahendranarayan Chaudhuri, Zemindar of Baishrashi, District Faridpur, for the establishment of two free-studentships known as "Swarnamoyee" and "Mahendra Narayan" free-studentships respectively.

Athletic Club fee	1	0
Total	83	8

5 The number of regular students to be admitted each year is generally 120, but the Principal, may at his discretion, increase or decrease this number. Preference for admission will usually be given to candidates who have superior qualifications, but the final selection lies entirely with the Principal.

One-fourth of the total number to be admitted shall be Mahomedans. Twelve candidates will be nominated by the Inspector-General of Civil Hospitals of Bihar and Orissa and six candidates by the Inspector-General of Civil Hospitals of Assam. These candidates must possess the qualifications mentioned in rule 2(a). In addition, the Bihar and Orissa Government will nominate six scholars, who after 1918. must possess the I.Sc. 8 All Regular students must pay an annual fee of Rs. 125 in two instalments, viz., Rs. 62-8 for the summer term and Rs. 62-8 for the Winter term. Fees once paid cannot be refunded.

9 The fees for each term are to be paid in one instalment. Except in the case of new students, the fees for summer term are due on the 15th June and those for the Winter term on the 1st November and must be paid on those dates or on such subsequent dates as the Principal may direct after which a daily fine of annas 4 will be levied along with the fee in each case of default.

For one subject...	Rs. 25
For two subjects	" 50
For three or more subjects	" 75

15 In calculating the sum to be paid under rule 13 by a Regular student, the amount of College fees paid by him or in the case of a student enjoying a stipendiary scholarship and free tuition, the amount which would have been paid by him had he been a paying student, shall be deducted.

16. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, i.e., he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.

17. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 13 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No. 601 of the 7th December, 1880.

18 The fee for Post-Graduates undergoing a course of training in the Pathological, Bacteriological, Physiological or Chemical Laboratory is Rs. 90 for a period not exceeding six months.

CARMICHAEL MEDICAL COLLEGE.

FOUNDED, 1916.

This College, the first non-official recognised Medical College in India, came into existence in 1916. The affiliation to the University of Calcutta in the Preliminary Scientific M.B. standard was obtained in April, 1916. The Institution that developed into this College was at the time of affiliation known as the Calcutta Medical School and College of Physicians and Surgeons of Bengal. It had its origin in the year 1886 when some independent medical practitioners met and thought that there was a great demand for medical education and that the Government medical schools were unable either to cope with it or to supply a sufficient number of trained medical men for the people. It was decided to start the first private medical school under the name of the Calcutta School of Medicine to supplement the efforts of the Government. The school continued in rented houses for seventeen years. The bulk of the present site was bought in 1896 and the school was removed to Belgachia in 1903. The curriculum was modified in 1887 and framed according to that of the Government medical schools. The name was also changed to "Calcutta Medical School." For Clinical instruction the students used to attend the Mayo Hospital from the year 1888. The Albert Victor Hospital (one storeyed building) was formally opened with 40 beds in 1902. The upper storey was built and the new wards were opened in 1909, the total number of beds being thus increased to 100. The institution flourished, numerous students wanted admission every year and many trained men of the Hospital Assistants standard were passed out. The College of Physicians and Surgeons of Bengal, another private institution started in 1895 aiming at medical education of the collegiate standard, was amalgamated with it in 1903. The combined institution was now called the Calcutta Medical School and College of Physicians and Surgeons of Bengal, and continued to do useful work till session 1917-18. During thirty years hundreds of trained medical men passed out who are doing useful work under Government, Municipalities, in the various industries, (jute, tea, shipping, &c.) or as country practitioners. This was rendered possible, mainly by the voluntary, ungrudging, and unpaid work done both in the school and in the Hospital by the independent medical profession.

In 1911, before the introduction of the Medical Registration Bill the Government asked the private medical institutions in Calcutta to unite and form one good and efficient teaching institution with a view to help its recognition by the University or the Bengal Council of Medical Registration. Attempts at this union continued for nearly two years but failed. The Government of India then decided to render financial help to the parent

institution at Belgachia with a view to its ultimate affiliation to the University of Calcutta. Negotiations were opened between the Government and the representatives of the institution in May, 1913. Ultimately a scheme was framed, the main conditions of which were that the Government offered to give a capital grant of 5 lacs, provided the Committee raised 2½ lacs from the public and a recurring grant of Rs. 50,000 provided they got Rs. 30,000 a year from the Calcutta Corporation and Rs. 10,000 annually from the University. The authorities had great difficulties in fulfilling the conditions of the Secretary of State and in obtaining affiliation of the University. However, at last these struggles were over and the difficulties overcome and the first affiliation to the University of Calcutta was obtained in April, 1916. The College was formally opened as Belgachia Medical College by Lord Carmichael, Governor of Bengal, on the 5th July, 1916.

In July 1917 the College was affiliated up to the standard of the 1st M.B. Examination. The affiliation of the college was extended to the Final M.B. Examination in July, 1919. Students of this college appeared for the Final M.B. Examination for the first time in April, 1922.

The College Curricula are in accordance with the M.B. Examination rules in the Regulations of the Calcutta University.

The College was named after Lord Carmichael on 7th April, 1919 in appreciation of his services in connection with its instruction. In May, 1918 the name of the Society was altered to "Medical Education Society of Bengal." New Rules and Bye-laws were framed and the Government of the College is now vested in a Council consisting of 11 members of whom 3 are nominated by Government and 1 by the Corporation of Calcutta. The Principal is a member *ex-officio*. Of the remaining six, 3 are selected by the College and the Hospital staff, and 3 by the members of the Society.

GEOGRAPHY.

The following books are recommended as indicating the methods of study as well as the standard of knowledge required :—

- E. Marsden .. Geography for Senior Classes, Parts I and II.

The World with fuller treatment of India (Longmans' Geographical Series for India, Book II).

- F. D. Unstead ... The Practical Geography, Parts I and II.

The following books are recommended for the use of teachers—

- Blanford ... The Rudiments of Physical Geography for the use of Indian Schools.
 Frew ... A Regional Geography of the Indian Empire (Blackie and Son).
 Wallis ... The Teaching of Geography (Cambridge University Press).
 O'Malley ... Bengal, Behar and Orissa, Sikkim (Macmillan & Co.)

The following book is recommended for the use of teachers in connection with the teaching of "Sand Modelling" in the lower classes of schools :—

- A. E. Frye ... Child and Nature

Every school that intends to undertake instruction in Geography for the Matriculation Examination is required to possess the apparatus mentioned in the following list :—

1—(The total cost need not exceed Rs. 65)—

1. A measuring tape.
2. A magnetic compass.
3. Squared paper, and tracing paper.
4. Clay, dry sand, paper pulp for modelling.
5. A globe not less than 14 inches in diameter, with writing surface and with line of latitude and longitude, and outlines only of the land masses, marked upon it.
6. A map of the school locality on a scale of 4" or 6" = 1 mile.
7. A map of the district in which the school is situated on the scale 1" = 1 mile.
8. A coloured map of the province.
9. A coloured political map of India.
10. A physical map of India.
11. A relief map of India.
12. A map of the world on Mollweide's equal area projection and a map of Asia.

It is essential that the students should be provided with atlases, or with the necessary hand-maps, and with a drawing instrument box. Maps for school work should not contain too much detail, or be crowded with names.

2. The following additional equipment is recommended when it can be provided, but the lack of it is not to be considered as a bar to the recognition of the school in Geography :—

1. A thermometer.
2. A mercury barometer.
3. A rain gauge.
4. A small collection of typical rocks, in particular those of the province and India.
5. A small museum of typical products.
6. A good standard atlas.
7. Geographical pictures.
8. Magic lantern and slides.

(1) The attention of teachers is requested to the raised maps of Bengal and Eastern Bengal and Assam made of paper pulp, prepared by Babu Kailas-chandra Datta, Head Pandit, Habiganj Government Girls' School, Sylhet, and sold for Rs. 7 and Rs. 5, respectively.

(2) Globes of all kinds are made by George Philip and Son, London, W. and A. K. Johnston, London, and Messrs. Ruddiman Johnston, London. Small hand Globes of German make can be obtained through the Indian School Supply Depot for about a rupee each.

(3) The "Comparative" series of large wall maps of the continents published by George Philip and Son is good and up to date; so also are the Orographical wall maps published by Edward Stanford. Messrs. Ruddiman Johnston publish a series of smaller wall maps which include maps of India illustrating various distributions.

Messrs. Nelson's wall atlases are good; Mr. S. B. Chatterjee publishes District maps: also ordinary and relief maps of the province.

Babu L. M. Basu, the drawing master of the Dacca Collegiate school, has published good relief maps of Eastern Bengal and Assam and of India.

The Vidal-Lablache French wall maps on strong cardboard, named on one side, and the same map without names on the reverse, published by Armond Colin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs. 4-14 each.

(4) The hand-maps coloured to indicate relief, published by the Diagram Company, West Barnes Lane, New Malden, Surrey, at one penny each, are the best of their kind.

The uncoloured half-penny maps, showing river systems and a few towns, published by the same Company, are excellent for class use.

The Autograph hand-maps with hill shading in brown, published by Messrs. Edward Stanford, London, at one penny each, are very good, and are larger than the Diagram Company's hand maps. The 15-inch map of the World on Mollweide's equal area projection is especially to be commended.

(5) Wall pictures of considerable artistic merit are published by Messrs. Edward Arnold of Leeds, Messrs. Hachette of Paris and Messrs. Holzels of Vienna, and Messrs. Longmans, Green and Company. They cost, delivered in India, from two to three rupees each.

Map lantern slides and view slides especially prepared for Geography teaching are sold by the Diagram Company for two or three shillings each. Mr. Bartington Smith of Darjeeling also sells good picture slides of the Himalayas at Rs. 15 per dozen.

ELEMENTARY MECHANICS.

The following books are recommended :—

Sir Philip Magnus	... Elementary Mechanics (Longmans, 1903.)
A. N. Sen	... Elementary Mechanics.

The following list of apparatus is prescribed as indicating the approximate requirements of a recognised High School seeking to teach Elementary Mechanics for the Matriculation Examination :—

- Plumb-line and level.
- Simple lever (including brass slotted weights).
- Roman steel yard.
- Lecture apparatus for experiments on movements.
- George's New Atwood's machine.
- Stop-watch.
- Glazebrook's apparatus (to demonstrate movement of a body).
- Hick's Ballistic Balance.
- Compound Wheel and Axle.
- 4 Single Brass Pulleys.
- *2 Single Brass Pulleys.
- 2 Triple Brass Pulleys.
- Weston Differential Pulley Blocks ($\frac{1}{2}$ ton).
- 16 feet of chain at 6d. per foot.
- Inclined Plane.
- Parallelogram of Forces apparatus.
- Wall Crane.
- Becker's New Physical Balance.
- Set of Gramme Weights (200 grams to 1 mgr.)
- 2 Composition-ivory Balls.

[NOTE—The above list is not exhaustive, and much of it might be replaced by similar forms that could probably be made far more cheaply by any clever mistry under proper supervision. In most cases, however, it will probably be found advantageous to buy such a set as indicated in the list specially for demonstration purposes, and subsequently to develop simplified duplicates, illustrating the same principles, which the boys should be given opportunity actually to experiment with on their own individual account or working in pairs.]

The World with fuller treatment of India	(Longman's Geographical Series for India, Book II).
F. D. Unstead	... The Practical Geography, Parts I and II.
B. C. Wallis	... Macmillan's Geographical Exercise Book (India).

* Open only to a candidate if it is not his Vernacular.

The following books are recommended for the use of teachers :—

Blandford	... The Rudiments of Physical Geography for the use of Indian Schools.
Frew	... A Regional Geography of the Indian Empire (Blackie and Son).
Wallis	... The Teaching of Geography (Cambridge University Press).
O'Malley	... Bengal, Bihar and Orissa, Sikkim (Macmillan & Co.).

The following book is recommended for the use of teachers in connection with the teaching of "Sand Modelling" in the lower classes of schools :—

A. E. Frye ... The Child and Nature.

Every school that intends to undertake instruction in Geography for the Matriculation Examination is required to possess the apparatus mentioned in the following list :—

1.—(The total cost need not exceed Rs. 65).

- (1) A measuring tape.
- (2) A magnetic compass.
- (3) Squared paper and tracing paper.
- (4) Clay, dry sand, paper pulp for modelling.
- (5) A globe not less than 14 inches in diameter, with writing surface, and with line of latitude and longitude, and outlines only of the land masses marked upon it.
- (6) A map of the school locality on a scale of 4" or 6" = 1 mile.
- (7) A map of the district in which the school is situated on the scale 1" = 1 mile.
- (8) A coloured map of the province.
- (9) A coloured political map of India.
- (10) A physical map of India.
- (11) A relief map of India.
- (12) A map of the world on Mollweide's equal area projection and a map of Asia.

It is essential that the students should be provided with atlases, or with the necessary hand maps, and with a drawing instrument box. Maps for school work should not contain too much detail or be crowded with names.

II.—The following additional equipment is recommended when it can be provided, but the lack of it is not to be considered as a bar to the recognition of the school is Geography :—

- (1) A thermometer.
- (2) A mercury barometer.
- (3) A rain-gauge.
- (4) A small collection of typical rocks, in particular those of the province and India.
- (5) A small museum of typical products.
- (6) A good standard atlas.
- (7) Geographical pictures.
- (8) Magic-lantern and slides.

1. The attention of teachers is requested to the raised maps of Bengal and Eastern Bengal and Assam made of paper pulp, prepared by Babu Kailaschandra Datta, Head Pandit, Habiganj Government Girls' School, Sylhet, and sold for Rs. 7 and Rs. 5 respectively.

2. Globes of all kinds are made by George Philip and Son, London, W. and A. K. Johnston, London, and Messrs. Ruddiman Johnston, London. Small hand Globes of German make can be obtained through the Indian School Supply Depot for about a rupee each.

3. The "Comparative" series of large wall maps of the continents published by George Philip and Son is good and up to date; so also are the Orographical wall maps published by Edward Stanford. Messrs. Ruddiman Johnston publish a series of smaller wall maps which include maps of India illustrating various distributions.

Messrs. Nelson's wall atlases are good. Mr. S. B. Chatterjee publishes District maps: also ordinary and relief maps of the province.

Babu L. M. Basu, the drawing master of the Dacca Collegiate School, has published good relief maps of Eastern Bengal and Assam and of India.

The Vidal-Lablache French wall maps on strong cardboard, named on one side, and the same map without names on the reverse, published by Armond Collin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs. 4-14 each.

4. The hand-maps, coloured to indicate relief, published by the Diagram Company, West Barnes Lane, New Malden, Surrey, at one penny each are the best of their kind.

The uncoloured half penny maps, showing river systems and a few towns, published by the same Company are excellent for class use.

The Autograph hand-maps, with hill shading in brown, published by Messrs. Edward Stanford, London, at one penny each, are very good, and are larger than the Diagram Company's hand-maps. The 15-inch map of the world on Mollweide's equal area projection is especially to be commended.

(5) Wall pictures of considerable artistic merit are published by Messrs. Edward Arnold of Leeds, Messrs. Hachette of Paris and Messrs. Holzcl of Vienna, and Messrs. Longmans Green and Company. They cost, delivered in India, from two to three rupees each.

Map lantern slides and view slides especially prepared for Geography teaching are sold by the Diagram Company for two or three shillings each. Mr. Bartington Smith of Darjeeling also sells good picture slides of the Himalayas at Rs. 15 per dozen.

Wallis	...	The Teaching of Geography (Cambridge University Press).
O'Malley	...	Bengal, Bihar and Orissa, Sikkim (Macmillan & Co.)

The following book is recommended for the use of teachers in connection with the teaching of " Sand Modelling " in the lower classes of Schools :—

A. E. Frye	...	The Child and Nature.
------------	-----	-----------------------

Every school that intends to undertake instruction in Geography for the Matriculation Examination is required to possess the apparatus mentioned in the following list :—

- I. (The total cost need not exceed Rs. 65.)
 - (1) A measuring tape.
 - (2) A magnetic compass.
 - (3) Squared paper and tracing paper.
 - (4) Clay, dry sand, paper pulp for modelling.
 - (5) A globe not less than 14 inches in diameter, with writing surface, and with line of latitude and longitude, and outlines only of the land masses marked upon it.
 - (6) A map of the school locality on a scale of 4" or 6" = 1 mile.
 - (7) A map of the district in which the school is situated on the scale 1" = 1 mile.
 - (8) A coloured map of the province.
 - (9) A coloured political map of India.
 - (10) A physical map of India.
 - (11) A relief map of India.
 - (12) A map of the world on Mollweide's equal area projection and a map of Asia.

It is essential that the students should be provided with atlases, or with the necessary hand maps, and with a drawing instrument box. Maps for school work should not contain too much detail or be crowded with names.

II. The following additional equipment is recommended when it can be provided, but the lack of it is not to be considered as a bar to the recognition of the school in Geography :—

- (1) A thermometer.
- (2) A mercury barometer.
- (3) A rain-gauge.
- (4) A small collection of typical rocks, in particular those of the province and India.
- (5) A small museum of typical products.
- (6) A good standard atlas.
- (7) Geographical pictures.
- (8) Magic-lantern and slides.

(1) The attention of teachers is requested to the raised maps of Bengal and Eastern Bengal and Assam made of paper pulp, prepared by Babu Kailaschandra Datta, Head Pandit, Habiganj Government Girls' School, Sylhet, and sold for Rs. 7 and Rs. 5, respectively

(2) Globes of all kinds are made by George Philip and Son, London, W., and A. K. Johnston, London, and Messrs. Ruddiman Johnston, London. Small hand globes of German make can be obtained through the Indian School Supply Depot for about a rupee each.

(3) The "Comparative" series of large wall maps of the continents published by George Philip and Son is good and up to date; so also are the Orographical wall maps published by Edward Stanford. Messrs. Ruddiman Johnston publish a series of smaller wall maps which include maps of India illustrating various distributions.

Messrs. Nelson's wall atlases are good. Mr. S. B. Chatterjee publishes District maps : also ordinary and relief map of the province.

Babu L. M. Basu, the drawing master of the Dacca Collegiate School, has published good relief maps of Eastern Bengal and Assam and of India.

The Vidal-Lablache French wall maps on strong card-board, named on one side, and the same map without names on the reverse, published by Armond Collin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs. 4-14 each.

(4) The hand-maps, coloured to indicate relief, published by the Diagram Company, West Barnes Lane, New Malden, Surrey, at one penny each are the best of their kind.

The uncoloured half penny maps, showing river systems and a few towns, published by the same Company are excellent for class use.

The Autograph hand maps, with hill shading in brown, published by Messrs. Edward Stanford, London, at one penny each, are very good, and are larger than the Diagram Company's hand maps. The 15-inch map of the world on Mollweide's equal area projection is especially to be commended.

(5) Wall pictures of considerable artistic merit are published by Messrs. Edward Arnold of Leeds, Messrs. Hachette of Paris and Messrs. Holzcl of Vienna, and Messrs. Longmans, Green and Company. They cost, delivered in India, from two to three rupees each.

Map lantern slides and view slides especially prepared for Geography teaching are sold by the Diagram Company for two or three shillings each. Mr. Bartington Smith of Darjeeling also sells good picture slides of the Himalayas at Rs. 15 per dozen.

In the Intermediate Examinations, candidates are expected to possess only a knowledge and understanding of the prescribed pieces (both prose and poetry); questions will not be set to test their knowledge of the lives, works and styles of the authors, beyond what is involved in the set pieces themselves.

(b) The question papers set for the B.A. and B.Sc. Examinations shall be identical in all subjects common to the two examinations.

(c) The question papers for the M.A. and M.Sc. Examinations shall be identical in all subjects common to the two examinations.

5. The Gentlemen appointed to set the examination papers are requested to write in the margin opposite to each question, the maximum number of marks they intend to assign to it.

6. The examination papers, in duplicate, written very legibly on one side only of foolscap paper, are to be sent by post in a sealed and registered double

cover to the Controller at his office. No copy of any examination paper is to be retained by the gentlemen setting it.

7. The papers set shall be submitted to the Controller with a certification over the joint signatures of the persons appointed that the papers conform to the prescribed conditions and not involve a material variation from the average standard.

8. Examiners will be expected to be present in Calcutta during the examination in the subjects for which they have been specially appointed.

9. When the answers to a paper or *half-paper* are divided between two Examiners, they shall determine, at a meeting, the standard to be adopted and compare their marks at a meeting, before submitting them.

12. The Examiners are required to examine the papers of the candidates in the order in which their names appear on the roll, and at the end of each week send to the Controller or to the Head Examiner, as the case may be, the pages of the roll containing the marks assigned to the papers examined. The number of papers examined each week is expected to be fairly proportionate to the total number of papers to be examined within the time prescribed. The attention of the Examiners is especially directed to this rule, and the Registrar is required to report to the Syndicate, after the examinations are over, any case of infraction of this or any other rule.

13. To facilitate the work of re-examination, the Examiners or the Head Examiners, as the case may be, shall keep the answer papers of the candidates arranged in the order in which their names appear in the roll.

In cases in which there is a Head Examiner, the re-examination may be done by the Head Examiner himself or by one or more of the Assistant Examiners at his discretion.

14. The answer papers shall be returned to the Controller as soon as the work of re-examination is over.

15. Six weeks before the Matriculation, Intermediate, B.A. and B.Sc. Examinations take place, the Syndicate shall fix the latest date for sending in marks. Where an Examiner has over 100 papers to re-examine, he shall send in the marks of these papers by instalments of 100 or less, as the re-examination of them is completed.

If any Examiner fails to send in his marks within the limits of time prescribed for examination and re-examination, the amount of his remuneration shall be reduced by Rs. 16 for each day by which he exceeds that period.

16. Each Examiner shall write his name and the subject of the examination at the foot of every page of his roll.

2. As soon as possible after an examination has been held, the persons who have set any question paper in the examination, and those who are to examine the answers to that paper or any portion of it and the Head Examiner if there is one, shall meet to determine the kind or standard of answers to be expected from candidates, and to decide upon a system of marking. Their conclusions shall be embodied in a memorandum to be jointly signed by them and forwarded to the Controller. If, owing to unavoidable circumstances, any Examiner who has set a paper is unable to attend the meeting, the remaining Examiners, contemplated by this Regulation, shall meet and transact the aforesaid business.

For this purpose a meeting of the Examiners in each subject shall be held as soon as possible after the close of the examination, at which provisional rules shall be drawn up. After this meeting, each Examiner shall look over a certain number of papers (the number to be determined at the meeting) and shall submit them to the Head Examiner for re-examination. After he has re-examined these papers, the Head Examiner shall call another meeting for the final determination of the rules. A copy of these rules shall be sent to each Intermediate Examiner and to the Controller.

3. Each Head Examiner shall re-examine 5 per cent. of the answer papers looked over by each of the Intermediate Examiners in the subject with a view to see whether they are working uniformly according to the method indicated and shall direct, if necessary, any Examiner to conform to that method.

The re-examination of the answer papers shall be conducted in the following manner:—

Every Intermediate Examiner shall, as soon as he finishes the examination of about 100 papers, send them with the corresponding pages of his roll to his Head Examiner, who shall examine at least five papers taken at random out of them, and shall give the Examiner any further instructions he may deem fit or shall return the remaining papers for re-examination, if he is of opinion that the rules have not been complied with. The same course shall be followed with every subsequent batch of 100 papers.

4. The functions of Head Examiners are—

- (1) to distribute in consultation with the Examiners, the marks allotted to a question consisting of several parts over those parts ;
- (2) to give general directions in consultation with the Examiners, as to what should be included within the scope of each answer, and as to how far any particular answer should be dealt with leniently or strictly by reason of the difficulty or simplicity of the question ;
- (3) to look over a few of the papers examined by each Examiner immediately after the meeting of Examiners to ascertain how far the standard, agreed upon is being followed ; and in cases of deviation from such standard, to give general directions to be more or less strict as may be required ;
- (4) to re-examine 5 per cent. of the answer papers examined by each Examiner with the object of seeing whether the standard adopted has been generally and fairly adhered to, but not to insist upon mechanical uniformity.

5. In no case shall the Head Examiner increase or diminish the marks assigned to any paper by an Intermediate Examiner without himself examining that paper.

6. In case of a difference arising between a Head Examiner and an Intermediate Examiner, an appeal shall lie to the Moderators.

7. Every Intermediate Examiner must remain in Calcutta as long as his services are required by his Head Examiner.

8. The Head Examiner shall forward to the Controller by instalments the marks or totalised marks as the case may be, in his subject with observations on those cases which he may deem worthy of special consideration.

In order to avoid delay in the submission of the totalised marks Head Examiners are requested to see that the Intermediate Examiners look over the papers of candidates in the order in which their names appear in the rolls (General Rule 11).

PRELIMINARY SCIENTIFIC, FIRST AND FINAL M.B. EXAMINATIONS.*

GENERAL RULES.

The examinations shall be conducted in accordance with the following General Rules (Chapter XXV of the Regulations).

1. No questions shall be asked which would require an expression of religious belief on the part of the candidates and any answer or translation given by any candidate shall not be objected to on the ground of its expressing peculiarities of religious belief.

2. Candidates shall give their answers in their own words as far as practicable in all subjects. This rule shall be inserted as a head-note in every question paper.

3. Examiners in setting papers shall be guided, as to the scope of the subject of examination by the syllabus prescribed in the Regulations and as to the standard and extent of knowledge required, by the books, if any, recommended from time to time for such purpose.

4. No copy of any examination paper is to be retained by the person setting it.

5. The papers set should be such as candidates can reasonably be expected to answer within the time allotted. The questions in each subject should be fairly distributed over the whole course in that subject, and should conform to the Regulations laid down for the particular examination; there should not be any marked change of standard from year to year, but it is not required that the same type of questions should be set every year. Examiners shall always allow some choice of questions.

6. Questions should be so framed as to encourage good methods of work and teaching, and to discourage unintelligent memorizing.

7. The two Examiners appointed to set a paper in any subject shall be jointly responsible for the paper. The paper shall be divided into two halves, distinguished as the "First Half," and the "Second Half." The answers to the First Half shall be looked over by one of the Examiners, and those to the Second Half by the other. The Oral and Practical Examinations shall be conducted by the two Examiners jointly. The remuneration sanctioned by the Syndicate shall be divided equally between the two Examiners.

In every subject where there are three Examiners, the papers be set jointly by all the three Examiners. In every subject where there are four Examiners, each written paper is to be divided into two halves, the answer to each half to be examined by two Examiners.

8. The Controller shall, as soon as the results have been tabulated, prepare a list of the candidates who have failed in one subject only; in order to guard against any possible inaccuracy, their papers in the subject in which they have failed, shall be re-examined *on the method of marking already adopted and without any alteration of the standard.*

9. Examiners, in giving marks, shall take the correctness of the language of the answers into account.

10. Examiners in giving marks, shall consider whether the answers indicate an intelligent appreciation of the subject or are merely the result of unintelligent memory work.

INTERMEDIATE EXAMINATION IN ENGINEERING AND B.E. EXAMINATION.

GENERAL RULES.

The examinations shall be conducted in accordance with the following General Rules :—

1. No question shall be asked which would require an expression of religious belief on the part of the candidates; and any answer or translation given by any candidate shall not be objected to on the ground of its expressing peculiarities of religious belief.

2. Candidates shall give their answers in their own words as far as practicable in all subjects. *This rule shall be inserted as a head note in every question paper.*

3. Examiners in setting papers shall be guided, as to the scope of the subjects of examination, by the syllabuses prescribed in the Regulations and as to the standard and extent of knowledge required, by the books, if any, recommended from time to time for such purpose.

4. No copy of any examination paper is to be retained by the person setting it.

5. The papers set should be such as candidates can reasonably be expected to answer within the time allotted. The questions in each subject should be fairly distributed over the whole course in that subject, and should conform to the Regulations laid down for the particular examination; there should not be any marked change of standard from year to year, but it is not required that the same type of questions should be set every year. Examiners shall always allow some choice of questions.

6. Questions should be so framed as to encourage good methods of work and teaching and to discourage unintelligent memorizing.

7. The two Examiners appointed to set a paper in any subject shall be jointly responsible for the paper. The paper shall be divided into two halves distinguished as the "First Half" and "Second Half." The answers to the First-Half shall be looked over by one of the examiners, and those to the Second Half by the other. The Practical Examination shall be conducted by the two Examiners jointly.

8. The Controller shall, as soon as the results have been tabulated, prepare a list of the candidates who have failed in one group of subjects only in order to guard against any possible inaccuracy, their papers in the subjects of the group in which they have failed shall be re-examined on the method of marking already adopted, and without any alteration of the standard.

9. Examiners, in giving marks, shall take the correctness of the language of the answers into account.

10. Examiners, in giving marks, shall consider whether the answers indicate an intelligent appreciation of the subject or are merely the result of unintelligent memory work.

11. In connection with all practical tests at the Intermediate and Bachelor of Engineering Examinations, candidates shall submit to the Examiners note-books duly certified by the Professor, of the practical work, done by them during the College session. The Examiners may, if they think proper, take these note-books into account when awarding marks for such practical tests.

In answering any paper, a candidate may use a slide rule, unless this has in any case been expressly forbidden by the Examiners setting the paper. Candidates who wish to take advantage of this permission shall bring their own slide rule. Mathematical tables will be provided when required.

12. Examiners are required to place opposite each question in their paper the full number of marks assigned to it.

13. The papers should be delivered by the Examiners in person to the Controller or sent to him at the Senate House in a *sealed* double cover on or before a date to be fixed by the Syndicate.

14. Rolls in which the marks awarded are to be entered in the Examiner's hand-writing will be supplied by the Controller on the day of Examination, and the answer papers duly marked should be returned to the Controller along with the completed rolls.

The total number of marks must, in every case, be a whole number; if the roll submitted by an Examiner contains fractional marks, it will be returned to him for correction.

15. The rolls containing the results of the examination must be submitted on or before a date to be fixed by the Syndicate.

16. Examiners will be good enough to retain a duplicate of the roll and bring it with them at the final meeting of Examiners for the purpose of checking the marks.

17. As soon as possible after the tabulation of the results, the entire body of Examiners shall meet and draw up a report on the Examination as a whole for the consideration of the Syndicate. If the Examiners are of opinion that in the case of any candidate who has not attained the standard laid down in Regulations for a pass, consideration ought to be made by reason of his high marks in a particular subject or in the aggregate, they shall make a recommendation to the Syndicate under Section 18, Chapter XXV of the Regulations.

18. As soon as possible after the publication of the results of the examination, the Examiners in each subject shall meet together and draw up a report upon the examination in that subject for the consideration of the Syndicate. The report so submitted shall ordinarily embody such remarks and recommendations, suggested by the work of the candidates, as it is thought desirable in the interests of education to communicate to the Heads of Colleges.

19. Examiners are required to keep the results of the examination and the marks assigned to candidates *strictly secret*.

20. Examiners will be expected to be present at the Senate House, Calcutta, during the examination in the subject for which they have been specially appointed.
